HOME PRODUCTS FAIR WILL OPEN TO-MORROW WITH STRIKING DISPLAY

Mayor Carl J. Pendray Will Declare Big Collection Open to Public To-morrow Afternoon; Visitors Will Have Opportunity to Win Valuable Building Site on Linden Avenue.

Exhibits are rapidly being assembled at the Bay Street Armories, in preparation for the opening ceremony to-morrow afternoon, and there can be no question that this will be the biggest and finest display of Victoria manufactures shown under the auspices of the Home Products Fair.

The exhibition, which Mayor J. Carl Pendray will officially open at 2:30 to-morrow afternoon, continues until Saturday evening, and will afford thousands of citizens an opportunity to gain a more comprehensive knowledge of the city's importance as an industrial centre.

With the opening of the fair to take place to-morrow, the more elaborate displays are in an advanced stage of construction. That of the Provincial Government Forestry Service shows an exceedingly realistic forest panorama with a background of snow-clad peaks. It is designed to stress the beauty and value of forests in contrast to the unsightly desolation of burnt areas caused by carelessness with fire.

The exhibit of David Spencer Limited will be another landmark of the fair. It is built in the form of a Chinese pagoda, and towers several stories above the neighboring displays.

The exhibit of the Hudson's Bay Company will be another outstanding feature, and will show, amid beautiful surroundings, a valuable collection of furs.

MANY ATTRACTIONS
With forty-four exhibitors occupying eighty spaces it will be apparent that anyone can spend several hours examining the interesting displays at this fair. There will also be a band in attendance every afternoon and evening. On Saturday evening the fair will wind up with a big fancy dress ball, at which prizes will be given by the manufacturers for the best costumes representative of their products.

Each admission ticket gives the holder an opportunity to compete for a valuable building lot on Linden Avenue, donated by the City Council, and there is nothing to prevent anyone buying any number of tickets.

SOUTH GRAY NOMINATION
Durham, Ont., April 20.—South Grey Liberal Association nominated John Mills of Hanover as their candidate in the next federal general election.

SEVERAL LOST LIVES DURING SPRING STORM

Snow Fell Yesterday in North-eastern United States, Ontario and Nova Scotia
Property Loss Estimated at Over \$1,500,000; Strong Wind Blew

Boston, April 20.—With clearing weather forecast for to-day, New England sought recovery from the storm, which hit the southern section and drenched with an inch of rain three northern states, and also covered them with two to sixteen inches of snow yesterday. The storm was accompanied by high winds, which reached gale force in many places, and caused extensive damage to railroad lines.

Many places reported snow, hail, thunder and lightning within twenty-four hours. Hundreds of motorists on week-end trips were marooned behind heavy snowdrifts to-day.

WINTER CARNIVAL
At Wolfboro, N.S., where a Winter carnival last February had to be postponed for lack of snow and ice, and where scores of motorists who arrived yesterday to enjoy the Summer-like weather, will participate in the carnival to-day, which includes snowshoe and ski races.

SEVERAL KILLED
Chicago, April 20.—A severe wind and rainstorm, approaching the proportions of a tornado in some localities, swept a destructive course from Wisconsin to New England yesterday. Several persons were killed and approximately two score were injured, while the property damage (Concluded on page 2)

SHIPPING MEN NOT PRODUCING PAPERS ASKED

British Lines Decline to Present Books Asked at Canadian Inquiry

Desire of Committee of Commons is to Learn Details of Profits
By Times Staff Representative
Ottawa, April 20.—Possibility of a break in Parliament's investigation of Atlantic shipping rates appeared to-day when British shipping companies stood firm in their determination not to produce certain information desired by the McMaster committee. It was understood here this morning that representatives of some British companies here had been instructed from Britain to withdraw from the investigation rather than produce the trip sheets, which reveal the profits made by each ship on every voyage.

Shippers objected to the production of these documents last week, but the committee feels the investigation would be incomplete without them. The question will be threshed out again this week. The committee is to sit again to-morrow.

SHAKEN BY FALL

Vancouver, April 20.—A reward for one week was ordered when Jack Hazelwood, thirty, who staged a thrilling escape from the city jail Saturday morning and was recaptured downtown ten hours later, appeared in police court charged with theft and forgery. Hazelwood still appears shaken as a result of his thirty-foot fall to the sidewalk as he was lowering himself down by means of a rope improvised from his blankets.

RUM RUNNERS BLAMED FOR SMUGGLING

Canada Loses \$50,000,000 Annually, Manufacturers' Complaint
Say Bootleggers Return From U.S. With Silk and Jewelry

Further information on smuggling into Canada, on which the Victoria Chamber of Commerce was asked to join in protest, was placed before the directors to-day by the Canadian Manufacturers' Association.

IN COMPETITION
The extent of smuggling is indicated by a statement made by Hon. Jacques Bureau, Minister of Customs, J. W. Sturtevant, secretary of the association, stated, "Revenue is suffering a loss of about \$50,000,000 annually. This gives an idea of the volume of goods entering Canada without payment of duty to compete with Canadian products."

The writer stated that smuggling had reached greater proportions in Ontario and Quebec than in any other provinces. Articles smuggled included silks, jewelry and other goods that would go into small space. The smuggling was done to a considerable extent by persons engaged in bootlegging liquor into the United States who wished to bring a return cargo. Smuggling was also declared to be serious in Winnipeg, where goods were brought in by motor from the international boundary.

In a previous letter before the directors, the manufacturers asked for the appointment of more investigators to wage war on smuggling and to facilitate matters asked the Minister be given power to make the appointments without reference to the Civil Service Commission.

A letter on the same subject dated March 4 from the Commercial Protective Association was placed before the directors. It thanked the Chamber for endorsement of their efforts, and said several smugglers had been arrested and much information gained.

Alderman A. E. Todd thought there was a little touch of reciprocity. "We bootleg into the United States and they smuggle into Canada," he (Concluded on page 2)

MILK PRICE WAR IN TERMINAL CITY BRINGS A CHANGE

Vancouver, April 20.—Benefits of a milk price war, begun last week between the independent dairies and the Fraser Valley Milk Producers' Association, are already being felt by hotels, restaurants and other large purchasers who buy in wholesale quantities and at wholesale rates. So far Vancouver homes continue to pay the old rate, one dollar for nine quarts.

COMMUNIST IN SOFIA WHO PLACED BOMB IS SHOT AND KILLED

Sofia, April 20.—Ninkoff, said by the Bulgarian police to have placed the infernal machine which killed more than 160 persons in the Sveti Kral Cathedral last Thursday, was cornered by police to-day and when he resisted was shot and killed. Ninkoff, a former officer in the engineering corps, was sub-chief of the Sofia communist executive central committee.

Paris, April 20.—The Bulgarian Government has asked the Allied Council of Ambassadors for permission to add 10,000 men to its militia.

PROFIT SHARING HAS HIS APPROVAL SIR ALFRED MOND

London, April 20.—Sir Alfred Mond, M.P., who recently suggested that instead of paying doles to the unemployed, the Government should subsidize industries to provide work has intimated in his chemical works a combination of cost-sharing and profit-sharing by which the workers are credited with a proportion of what is saved in costs by more rapid and better workmanship.

WHO'S WHO Ss. EMPRESS OF RUSSIA

Rt. Rev. Bishop Arthur Knight of St. Augustine's College, Canterbury, who has been investigating mission conditions in Japan, J. F. Joly, secretary to the Belgian Embassy at Tokyo, returning to Brussels.

A German representative of the Standard Oil Company at Seoul.

Lewis H. Powell, world traveler, who will spend a short holiday fishing on Vancouver Island.

L. R. Aguinaldo of Manila, nephew of General Emilio Aguinaldo, leader of the insurrectionists in the Philippine Islands following the Spanish-American War.

Frank J. D. Barnjum, timber man of Montreal, who has been looking into timber conditions in the Far East.

Major W. G. Coxen, a military officer of London.

Dr. J. A. Urquhart, medical man of Vancouver.

H. W. Pontifex, globe trotter, who was a traveler on the world cruiser Empress of France as far as Hongkong.

Taschereau Says Federal Contest Is Coming Soon

Montreal, April 20.—"We are on the eve of a Federal election," said Premier L. A. Taschereau in the course of a few informal remarks at a meeting of the Montreal Reform Club Saturday evening. The Premier urged Liberals throughout Canada to unite.

HEARD BY LARGE MONTREAL AUDIENCE; HON. J. E. CARON

The Montreal Reform Club had as its principal speaker at a meeting Saturday night Mr. Caron, Minister of Agriculture of Quebec Province. Hon. J. A. Taschereau, Premier of Quebec, spoke briefly.

WORLD TOURIST STAYS HERE TO FISH ON ISLAND

Lewis H. Powell to Test Out Trout Streams of Vancouver Island

Travelers From Empress of France Return on Russia To-day

After making a tour of all the most interesting places in the world, Lewis H. Powell, of Kilbedon, Eng., who arrived here to-day on the liner Empress of Russia, accompanied by Miss Powell, has decided to remain on Vancouver Island to indulge in the sport of fishing.

"I have heard a great deal about the wonderful sport offered the fisherman on Vancouver Island and I expect to have an enjoyable time during my stay here," said Mr. Powell this morning as he disembarked from the Canadian Pacific liner.

While in Victoria Mr. Powell will make his headquarters at the Empress Hotel.

"We sailed from England on the liner Moldavia," said Mr. Powell, and propose to return to England by June, sailing from New York.

During their world tour, during which they visited all the countries of the Near and Far East, Mr. and Miss Powell sailed part of the time on the liner Empress of France, the Canadian Pacific liner now crossing the Pacific from Yokohama to Victoria.

Other travelers making the world cruise on the liner Empress of France, and who left the ship to join the Empress of Russia in the Orient, were H. W. Pontifex, of London, Eng.; Frank J. D. Barnjum, a prominent timber man of Montreal, and Mrs. E. M. Ingraham, a forestry lecturer of Natick, Mass. Mrs. Ingraham stated that she had been ill on the voyage and was hurrying back home.

TO PROTECT LIVES

Washington, April 20.—One hundred and fifty-five officers and men from the United States cruiser Denoyer of the special service squadron were landed to-day at Celba, Honduras. They are under orders to protect lives of United States citizens and property that may be endangered as a result of a revolutionary outbreak reported there.

NANTON WEAKER

Toronto, April 20.—Sir Augustus Nanton, president of the Dominion Bank of Canada and head of the financial firm of Osler and Hammond, is reported to be weaker this morning. He had been ill for some time, but a few days ago he suffered a severe relapse, and five physicians, after a consultation, announced no hope could be entertained for his recovery.

MILITIA CALLED FOR SERVICE IN BLOEMFONTEIN

Disturbances in Capital of Orange Free State Resulted in Police Firing Volley Into Crowd of 4,000 Natives; Number of Casualties Not Reported; Ringleaders of Violence Arrested.

Bloemfontein, Orange Free State, April 20.—A serious situation exists in the native quarter here, where, after disturbances, police fired a volley into a crowd of 4,000. The number of casualties has not yet been ascertained.

The ringleaders of the disturbances have been arrested and the citizens' military force has been called out.

B.C. TO CONTINUE FAMOUS BUNGALOW AT WEMBLEY SHOW

Acting Premier Pattullo Announces Government Policy on Empire Show Publicity

British Columbia will continue at Wembley its exhibit of natural resources and opportunities for newcomers to this Province.

The announcement of this decision of the Government was made to-day by the Hon. T. D. Pattullo, acting Premier.

An appropriation for this advertising of B.C. at Wembley during the coming season has been put through Mr. Pattullo's cabinet. A special feature of the exhibit this year will be the bungalow built of special British Columbia woods, showing all the uses to which they can be adapted, he explained.

It is the bungalow that was visited by 10,000,000 to 15,000,000 persons at Wembley last year and caused so much comment. A big mining exhibit will also be placed there by the Hon. William Sloan, Minister of Mines.

Mr. Pattullo has complete charge of all department of the B.C. Government to-day, as he is the only Cabinet Minister at the Parliament Buildings. Hon. E. D. Barrow, Minister of Agriculture, went to Ottawa with Premier Oliver at the end of the week.

Attorney-General Manson, Hon. J. D. MacLean and Hon. W. H. Sutherland went to Grand Forks to assist the Hon. William Sloan, who has charge of the campaign there for the Government forces.

590 TINS OF OPIUM SEIZED IN STEAMSHIP

Some Taken From Achilles at Seattle and Rest as she Steamed to Vancouver
Credit For Seizures is Given Captain Melling and His Alert Officers

Vancouver, April 20.—Five hundred and ninety tins of opium, the wholesale value of which is estimated at \$41,300, were seized by officers of the Blue Funnel liner Achilles while the vessel was docked at Seattle and on the way from Seattle to Vancouver. This is one of the largest consignments ever seized on a deep sea vessel visiting Vancouver, and is due entirely, port authorities say, to the alertness and watchfulness of Captain Melling, commander of the Achilles, and his officers.

ORDER IS KEPT IN LISBON AFTER REVOLT ATTEMPT

London, April 20.—Latest advice received in official quarters here from Lisbon to-day indicated all was quiet in the Portuguese capital and that order had been restored after Saturday's short-lived revolt.

FOUR MEN KILLED

St. Paul, Minn., April 20.—Four St. Paul men were killed to-day when their automobile overturned into a creek near White Bear, just north of here, plunging them down in five feet of water. Three other passengers were rescued.

Bloemfontein, capital of the Orange Free State, is one of the cities scheduled to be visited by the Prince of Wales during his present tour. He is to reach Capetown April 30, and thereafter travel through the Cape Province, the Orange Free State and other sections.

FAMOUS BRITISH FIRM STUDIES COAST MARKETS

Dominion Agent of Armstrong Whitworth, Ltd., in Victoria on Business Tour

Thomas Stoker, Montreal, managing director for Canada of the Sir W. G. Armstrong Whitworth Company Limited of London, Newcastle-on-Tyne, and Manchester, arrived in Victoria yesterday on a tour of market investigation for the famous British firm.

Mr. Stoker's visit is in particular reference to openings for pulp wood machinery made for the firm, but includes a general insight in the Western Canadian market for the many products of the engineering house.

He is understood to be in indication of renewed interests in expansion of their western trade.

ARMILIOUS JARVIS SOON TO BE FREED

Toronto Globe Says Financier Will Leave Prison in Ontario Next Friday

Toronto, April 20.—The Toronto Globe published the following on its front page this morning:

"It is understood that Armilious Jarvis will be released from the jail farm at Quebec next Friday. Arrangements for the payment of the \$10,000 fine will be completed by him on Thursday and the money paid over exactly under the same conditions that surrounded the payment of \$10,000 two months ago. At that time Mr. Jarvis wrote a letter to the authorities virtually claiming the money was being paid under protest."

LARGE SUM RAISED
"Friends in the financial district of Toronto have made the arrangements for paying the rest of the fine and thus securing his release. They have formed themselves into a trust by which a sum close upon a quarter of a million dollars has been raised. In order to pay the \$10,000 portion of the fine, Mr. Jarvis pledged his assets with a financial institution which advanced the money and an additional amount to meet some necessary expenses."

"The trust formed by the friends of Mr. Jarvis will devote the amount necessary to pay the balance of the fine. Mr. Jarvis pledged to the financial institution. The trust will hold these assets and thus maintain their value rather than allow them (Concluded on page 2)

DISASTROUS EXPLOSION IN MASSACHUSETTS—A hundred buildings were demolished, one killed and many are missing after a fireworks explosion in the plant of the National Fireworks Co. at Hanover, Mass. Photo shows part of the wreckage of the plant.

D.D., was formerly Fellow and Dean of Gonville and Caius College, Cambridge, and Bishop of Rangoon.

On his arrival here to-day Bishop Knight stated that he had been sent to Japan by the College of St. Augustine to look into the activities of the missionary movement in Japan, which is now independent of its former affiliations with British missions.

The second St. Augustine's College at Canterbury was founded in 1845 with the aim of training men for service in the British dominions and the foreign mission field. The college occupies a unique position, being independent of any society of the church or diocese, and directly under the authority of the college itself as represented by the electors of the staff. Its warden and fellows are appointed by the two archbishops and the Bishop of London, and form the corporate body which, under a royal charter, holds the college property and is responsible for its working.

ON HISTORIC GROUND
Bishop Knight stated to The Times to-day that the second and present College of St. Augustine is the religious foundation which was placed on that historic ground just outside the walls of old Canterbury. The first college was built in the year 597 A.D., and was known as the Monastery of St. Augustine, probably the most famous in all England, which ended with the Reformation, when the property was seized by Henry VIII.

This second college, founded in 1845, Bishop Knight states, is carrying on the work of the first—spreading the religion of Christ. Speaking of the enlarged scope of the work of the college, Bishop Knight stated that fifty of the St. Augustine alumni were now working in Canada, including Archbishop Sweet of Victoria, Rev. J. W. Plinston of Vancouver, Rev. J. W. Plinston of Vancouver, and the Bishops of Calgary and Brandon.

Within the past ten years, Bishop Knight added, the remains of the church—built by Elizabeth—for St. Augustine have been discovered in the college grounds.

LIVES LOST IN STORM

(Continued from page 1)

is estimated at over \$1,500,000. New England was deluged with snow and low temperatures were reported at some points. Scores of buildings were destroyed or unroofed, trees were felled, boats were beached and telephone, telegraph and electric lighting systems were crippled, while fire in some places in the wake of the high winds and driving rain completed the destruction. Churches were marked sufferers, the roofs of steeples of several being carried away while services were in progress, without injury to congregations.

THREE KILLED

Two persons were killed in Peoria, Ill., and a man was electrocuted at Macomb, Ill., when he picked up live wire. Ten were injured at Wheeling, W.Va., fifteen at Pittsburgh, two at Millbrook, Pa., and a number of others in scattered towns throughout the storm area.

In Central Illinois, Peoria and Pekin were the hardest hit. In Peoria, where the property damage was estimated at \$900,000, two night watchmen were killed when the walls of the Walker Hardware plant fell. The damage in Pekin was estimated at \$100,000.

SNOW IN MINNESOTA

Flood-and-a-half inches of snow fell in Duluth, Minn., where Sunday's average temperature was twenty-two degrees.

The storm apparently missed Indiana, but much damage to property is reported in Ohio, Kentucky, West Virginia and Pennsylvania. In Pittsburgh the property damage is estimated at \$300,000.

SNOW IN ONTARIO

The storm reached up into Southern Ontario, where snow fell, the Belleville district having twelve to fifteen inches, the Lindsay district eleven inches and other areas a thick white blanket. In the Midland district lightning was seen as snow was falling.

NARCOTICS SEIZED

(Continued from Page 1)

TO CUSTOMS MEN
The first cache, amounting to 200 lbs., was made just before the ship left Seattle for Vancouver on Saturday, and a second lot of 300 was discovered after the vessel had cleared for this port.

The first lot was handed over to the customs officers at the port of Seattle, and the second parcel given to the Canadian customs when the ship arrived here on Sunday.

A search of the ship on Sunday by Canadian customs officers did not reveal any more of the contraband.

ALWAYS ON ALERT

Officers of the Blue Funnel liners are always on the watch for opium and other narcotic drugs in their ships, as there are always some of the Chinese crew willing to attempt to smuggle.

otic drugs on board. When the Achilles reached Victoria, an especially strong corps of customs men watched her, and there was nothing landed.

NONE LANDED

A big squad of United States customs men was on board in Seattle and none was landed there. Just as the ship was about to pull out for Vancouver an engine found 230 lbs., apparently produced from a cache and arranged ready to slip overboard. It is thought it was to be passed to a launch as the vessel left the Puget Sound port. This opium was given to the United States customs officials.

Then a further search of the engine room was made, the chief and his men combing all possible places of hiding. They finally uncovered the other lot of 300 lbs. and at once notified the captain, who sent word on to Vancouver.

SECOND TRIAL OF CHANG IS STARTED

Jurors Will be Watched Closely During Proceedings in Vancouver

Vancouver, April 20.—To safeguard the jury empanelled this morning for the second trial of Chang Sing on a charge of having murdered David C. Lew, Deputy Sheriff Robert, two provincial police constables and a matron will be in constant attendance.

The jury comprises five women and seven men, for whom a suite of rooms leading into a common corridor, has been engaged in a downtown hotel. The deputy sheriff, constables and matron will maintain a continual guard day and night.

Mr. Justice W. A. Macdonald excluded, from the jury all who had been members of the first jury.

After the judge had pointed out that a day had been lost because the remainder of the petit jury had been released until to-day, Mackenzie Matheson, Crown counsel, with A. M. Johnson, K.C., suggested that the jurors not empanelled in the trial should return on Wednesday morning. The judge so ordered. The purpose is to have jurors in attendance should Chang Sing's second trial miscarry in the meantime.

BETTER SPEED

Pastor progress is being made in this trial compared with that of the preceding, and it is possible the trial will conclude by Wednesday evening.

The first two witnesses were C. F. Wooten, surveyor, who identified a plan of the scene of the tragedy, and Dr. A. W. Hunter, who performed an autopsy on the body of Lew.

FOREST CONSERVATION

(Continued from page 1)

the country will be changed. Where mountains are timberless the very soil is washed away by heavy rains. In one flood alone in China in 1924, \$10,000,000 damage was done in the district of Kwangsi—and all because the surrounding mountainous country is treeless.

According to Mr. Barnum an ounce of conservation is worth more than a ton of reforestation. In 1924, for the 1,000 acres reforested in Canada 3,000,000 acres were destroyed by fire in the province of Quebec alone.

The story of Canadian forests for the export of pulp is another phase of the question which Mr. Barnum greatly deplores. "Last year 1,000 cords of wood were sent out of Canada for pulpwood, bringing into the country the paltry sum of \$12,000,000," he said. "This amount if manufactured into paper within the Dominion would bring in approximately \$70,000,000."

MRS. SLATER DIES IN AUSTRALIA

Commissioner Victim of Angina Pectoris

Vancouver, April 20.—Word was received here to-day of the death in Sydney, Australia, of Mrs. Slater, wife of J. C. Slater, James Slater, C.P.R. representative at the Australian port.

Mr. and Mrs. Slater were pioneer residents of Vancouver, and left for Sydney four years ago.

Mrs. Slater made a host of friends in Victoria during her brief stay while her husband held the post of Prohibition Commissioner under the British Columbia Government. They lived for about four years at Nile Avenue, Oak Bay, before leaving for Australia, and had intended returning to British Columbia for a holiday next month. Mrs. Slater's sudden death was due to angina pectoris.

In addition to Col. Slater, Mrs. Slater leaves to mourn her loss, two sons, John and William Slater in Vancouver; three daughters, Runa, in Australia; Mrs. Harvey in Vancouver, and Mrs. Bungay in Seattle.

DROWNINGS WHEN RESERVOIR BURST NUMBERED FIVE

Woman and Four Children Lost Lives in Accident at Skelmorlie, Scotland

Glasgow, April 20.—As the result of the bursting of a reservoir at Skelmorlie, Scotland, on Saturday, five lives were lost and considerable damage was done to property.

The victims of the flood were: Mrs. Adam, wife of a well known resident of Greenock who is a traveler for a brewery; Ursula Scott, fourteen, her niece; Alexander Dallas, eight, and Frederick Dallas, five, sons of a local coal dealer, and Winifred Menhenet, eight, niece of Alexander Dallas.

MUCH WATER RELEASED

The reservoir, on a hillside about three-quarters of a mile from the town, contained about 3,000,000 gallons of water. It collapsed without warning and in the terrific rush of water, dwellings, trees and garages were engulfed in a raging sea.

The breaking of the reservoir is thought to have been due to an exceptionally heavy rain last Friday. This reservoir and another not far away have furnished the water supply for a considerable area, including a village on the Earl of Eglinton's estate.

Skelmorlie is a picturesque holiday resort on the Argyshire coast overlooking Bute Island.

BIG RUM SMUGGLING PLAN HAS FAILED

London, April 20.—The London Daily Mail asserts that Sir Roderick Hartwell left England a month ago to superintend delivery to a syndicate in the United States of his seventh and largest shipment of spirits, but that the consignment has met with a series of misadventures, and most of it is now in the hands of the United States prohibition authorities.

The paper prints a telegram alleged to have been received from the baronet by his London office as follows:—

"Visit discloses appalling situation. Over 30,000 yards seized. Balance transferred to three schooners. At present safe, but can not reach or communicate."

"Few thousand unloaded, but resulting funds paid out for chartering vessels. No funds available—unless schooners land goods. At present impossible owing to intensive campaign. Returning soon as possible. Communicate to inquirers with deepest regrets."

The Daily Mail remarks that the 800 persons who supplied the funds to purchase the whisky are hardly likely to get much return.

Sir Roderick is expected to arrive in London to-day or to-morrow.

It is recalled that the baronet's circulars inviting the public to participate in his ventures promised a profit at the rate of 120 per cent.

The reported failure of his expedition caused another paper, The London Star, to remark that "precious little sympathy need be wasted" on him and his supporters, adding:—

"We believe most of the English people will regard it as quite a satisfactory situation."

SMUGGLING

(Continued from Page 1)

said: He proposed the letter be filed. George MacGregor seconded.

J. L. Beckwith moved an amendment that the manufacturers be assured of the full support of the Victoria Chamber of Commerce in their efforts directed towards stopping smuggling.

"We have our share of smuggling on the coast of Vancouver Island," he remarked. "There are fellows run stores on stuff they smuggle."

"All the goods smuggled here you can tie around your hat," Capt. MacGregor remarked.

R. W. Mayhew seconded Mr. Beckwith's amendment.

Alderman Todd doubted whether the Minister of Customs had said, as stated in the letter, that \$50,000,000 worth of revenue was lost to Canada through smuggling.

Mr. Beckwith's amendment was defeated and the motion to receive and file the letter carried.

JARVIS TO BE FREED

(Continued from Page 1)

to be disposed of under forced sale. As these assets are realized on, Mr. Jarvis will be released from all claims the trust will have on him."

DELAY NOT UNDERSTOOD
The Globe adds that the authorities are just a little puzzled about the delay in the issuing of the amended order by the Appeal Court fixing the fine upon Mr. Jarvis at \$200,000. Counsel will apply to the Sheriff of Toronto to-day, it says, for the new order so arrangements may be completed for the payment of the final instalment of the fine.

Ensemble Suits

The Season's Most Brilliant Success!

IN both Paris and New York, the first requisite in the Spring wardrobe is the Ensemble Costume, a gown with matching coat. Thus by a single purchase the well-dressed woman secures that harmony throughout the entire costume which the Spring mode demands. Either garment may be also worn separately.

A Choice Selection at \$39.50 to \$49.50

Ensemble Chokers

The last word in Furs, to complete the ensemble suit—Chokers of various peltries.

Your Hat Is a True Index of Your Ensemble Costume

You cannot afford to have less than the best in Hats—best in style, best in color, best in trimming and best in price. You find here hats ensembles of lovely beauty, of originality, of distinctiveness—the kind that appeals only to women of discriminating choice!

GERMAN ELECTION CAMPAIGN IS TAME

Public is Not Excited by the Marx-Hindenburg Presidential Contest

Berlin, April 20.—With the decisive balloting in Germany's first presidential election only a week off, popular interest in the fight between former Chancellor Marx and Field Marshal von Hindenburg continues dormant or of a wholly negative character.

Dr. Marx continues to draw huge audiences on his tour of the metropolitan centres, but as the meetings are staged under the auspices of three republican parties, he is invariably insured big turnout.

Von Hindenburg's campaign got under way in Hanover yesterday when the candidate of the Nationalist Bloc gave the first formal public utterance of his political programme. He is being presented to the German voters not only as a national hero, but as a man who is above parties and partisan politics and who is ordained to bring to the fatherland a much-needed national unity. Observers who profess to understand the psychology of the German electorate believe that if he is elected next Sunday, his victory will be the result of sentiment rather than political perspicacity on the part of the individual voters.

TO-MORROW'S EVENT

TO-MORROW AFTERNOON the Home Products Fair will be opened to the general public in the Armories. The admission fee has been fixed at ten cents. Almost as cheap as it could be made!

It ought not to be necessary to point out to the people of this community that it should be regarded as their duty to pay at least one visit to the Fair. It is reasonable to suggest that many of them will learn for the first time how many articles are manufactured in Victoria. It might impress upon them the fact that if they would demand more of these products and less of similar articles which are now being imported, the payrolls of a number of establishments in this neighborhood would soon be doubled.

The Home Products Fair is nothing less than Victoria's business card. It is an important event to the people who live and earn their livelihood here. They should be interested in it for obvious reasons. But it is more important that they attend in large numbers for the reason that the interested visitor from other points will interpret the amount of local interest displayed as an indication of the progressiveness, or otherwise, of Victoria and neighborhood.

This is the time for progressive interest in local manufactures. The exhibits at the Armories should be regarded as educational. There is a lesson there to be learned.

THE RIGHT OUTLOOK

WHEN A PARTY of young migrants left Britain recently for Canada the Rt. Hon. J. H. Thomas told them they were very lucky to be able to go to such a promising and prosperous Dominion as this. His observations left the impression in the minds of the youths to whom he addressed them that this is the country for the young man and young woman. There is no doubt about it.

A correspondent writes to us from a prosperous community on the northern coast of this Province and bears out everything Mr. Thomas said. He cites a jolly party which was held in his own neighborhood a couple of weeks ago. At that gathering, he points out, there were more than twenty young married couples and, save in only two instances, all were bringing up a family, all of them were happy and contented and putting a little bit away for a rainy day. Also, citing the fact that nineteen of the couples were still in their twenties and had not been married more than four years, this advocate of British Columbia as a place in which to live and, as he puts it, "make a go of things," intimates that neither this nor any other part of our young country will ever be developed as long as there are so many people who are looking for jobs "where the work is put out."

This is the sort of healthy outlook which is necessary if British Columbia is to enjoy all the benefits to which her most advantageous position and wealth of natural resource entitles her. There is no room for sensation-mongers and crepe hangers.

THE FRANCHISE

MORE THAN NINE thousand voters in the electoral ridings of Victoria and Esquimalt failed to exercise the franchise at the provincial elections last June. The names of all these were consequently struck from the roll in accordance with the law of the Province. For more than two months they have had an opportunity to reinstate themselves and put themselves in a position to vote at a future election. Up to date only a little more than twelve hundred have taken the trouble to do so. The neglectful ones still have until May 18 to take the necessary course. Those who do not will remain disfranchised and unable to take a hand in the conduct of their own affairs.

Such a small number of applications for reinstatement is a striking

commentary on the apathy which some people appear to display towards one of their most valuable rights. There may come a day in this country when the example set by New Zealand will be followed. In that Dominion—from which has come some of the most progressive of modern legislation—the matter of registering electors is being entrusted to the people themselves. The law there now directs that the person qualified to vote shall apply for his form and provides the machinery to fine him if he defaults in this respect. The Act came into operation last November and it gave all qualified electors to get on a brand new roll by the end of last month. Those who failed to do so have committed a punishable offence.

It will be understood, of course, that the authorities in New Zealand do all that is possible to facilitate the process of registration and reinstatement; but in a general way the initiative lies with the elector. At each residence the postman leaves a notice to residents to enrol, with application forms and addressed envelopes, and registration can be effected at any post office. When the voter changes his address he must let the registrar know within two months or he will be fined.

Although the southern Dominion has not gone as far as fining the person who does not vote, the thoroughness with which the Government has apparently overhauled its electoral machinery would suggest that even this innovation may yet be tried. In any event the method so far adopted should at least tend to create and increase personal interest in the government of the country and accentuate individual responsibility. It is to be hoped also that the neglectful ones in the Victoria and Esquimalt ridings will take note of the New Zealand plan—a real concern for the general public and its best interests.

FIGURES THAT TALK

AT THE END OF THE first two weeks of this month the building total for the City of Vancouver amounts to double the total for the whole of April last year. In the City of Victoria there is also a proportionate revival in building activity taking place.

Home building is the one sure sign that conditions are good. People do not obligate themselves to large capital expenditures unless they have good reason for it. The obvious good reason is capacity to pay the bills of the contractors.

The interesting point in the Vancouver figures, however, is the contrast which they present between their meaning and the picture of conditions which Mr. H. H. Stevens has been painting in Eastern Canada. They do not agree at all.

The member for Vancouver Centre has tied himself to the Party of Gloom and he has interpreted membership in the party to entitle him to tell the easterner that Vancouver is either dead or dying. But home building figures make more impression on the intelligent mind than peanut politics.

OUR CATTLE

WHILE THE FINLAY Commission was listening to evidence as to why the British embargo against Canadian cattle should or should not be lifted quite a number of the larger stockbreeders in Great Britain went to considerable lengths to explain to anybody who wanted to learn something about the question that the importation of stores from this country would not have the slightest effect upon the price of meat—it would at least not reduce it. On the other hand there were those, more particularly the butchers, who smiled indulgently while the same stockmen witnessed the demise of what they have been for a very short time a sanitary regulation but which had been for years a purely economic bar. What has been the result?

Four hundred delegates of the National Federation of the Meat Trades Association met at Margate a few days ago and listened to a statement intimating that the removal of the embargo on Canadian cattle had caused a drop of ten cents a pound in the wholesale price of meat and that the public got the benefit by getting lower prices. Nor was this all. The Executive Council brought forward a resolution advocating the removal of the present restrictions which govern the cattle trade between Canada and Britain—suggesting that they should be admitted on the same terms as cattle are admitted from the Irish Free State, namely, as if from a part of the United Kingdom. It was also emphasized that "the quality of the Canadian cattle sent to Britain had surprised

not only farmers and feeders, but pedigree stock breeders," that "they are excellent stock for replacing our defective milk cows." This is a pleasant picture from Britain and augurs well for Canadian stockmen.

DR. FRANK CRANE

On

THE SIXTH SENSE

THERE has always been a feeling of lively interest in the great sea of necience that surrounds our science.

There are a lot more things that we do not know than we do know. Mrs. Henry Sidgwick of the Society of Psychical Research has written a paper the experiments in thought transference carried out by Professor Gilbert Murray, in which the Earl of Balfour recently participated.

The way we sense the infinite around us is not confined to the usual five senses of sight, sound, smell, taste and touch. It is conceived that we may appreciate another's thought by some other sense than these.

As in the case of telepathy there may be thought transference without any purely physical process. These may be brain waves, or they are transmitted through the ether and which are received without the operation of the usual senses.

There has always been a disposition on the part of some to penetrate into the unknown, but so far as is now established there has been no distinct and definite understanding of mental telepathy. We are still moving in a sea of mystery, and the facts of mental telepathy have not yet been firmly established.

Mrs. Sidgwick classifies her subjects into five divisions: first, scenes or incidents in which friends and acquaintances are concerned; second, scenes or incidents from books or plays; third, fantastic scenes, including dreams; fourth, particular quotations asked for; and fifth, scenes in which human beings do not appear.

The highest percentage of success was in the third class, and her explanation is that these had a more explicit reality. She also declared that he was inclined provisionally to admit the likelihood that we may become directly sensitive to another person's state of mind.

This statement will require a lot more proof.

Thought transference at present is an occasional and unusual incident and the laws underlying it have not yet been discovered. We must wait for the future, for, of course, we cannot tell.

He who has felt nothing does not know how to learn anything. —Rousseau.

By mutual confidence and mutual aid.

Great deeds are done and great discoveries made. —Pope.

A man cannot have an idea of perfection in another, which he was never sensible in himself. —Steele.

The mind, relaxing to needless sport, should turn to writers of an abler sort.

Whom we well managed, and whose classic style, Give truth a lustre, and make wisdom smile. —Cowper.

Men seldom, or rather never for a length of time and deliberately, rebel against anything that does not deserve rebelling against. —Caryle.

Recompense injury with justice, and recompense kindness with kindness. —Confucius.

The contemplation of celestial things will make a man both great and think more sublimely and magnificently when he descends to human affairs. —Cicero.

No one who cannot master himself is worthy to rule, and only he can rule. —Goethe.

The object of oratory is not alone truth, but persuasion. —Macaulay.

The worst solitude is to have no true friendships. —Bacon.

Books will speak plain when counsellors blanch. —Bacon.

Joys are our wings, sorrows are our spurs. —

WHO'S WHO IN HISTORY TO-DAY

MONDAY, APRIL 20

ELIZABETH BARTON

Called the "Nun" and the "Maid of Kent," convicted as an impostor, was executed for treason on April 30, 1834. After recovering from a hysterical disease, accompanied by religious mania, she feigned her former condition and, among other things, declared that Henry VIII was not king in the sight of God.

FRANZ KARL ACHARD

German chemist, the founder of the beet root sugar industry, being the first to turn into practical account Margraff's discovery of sugar in the vegetable, died on April 20, 1813. He was discovered "The Casting Away of Mrs. Leck and Mrs. Alesine."

FRANK R. STOCKTON

American author, mainly of humorous stories, died at Washington, D.C., on April 20, 1902. His best-known writing are "The Lady and the Tiger," "Rudder Grange" and "The Casting Away of Mrs. Leck and Mrs. Alesine."

CHARLES FRANCIS ADAMS

American lawyer, writer and railroad president, a son of the more famous Charles Francis Adams, statesman and diplomat, died on April 20, 1913. He was breveted brigadier-general in the Union Army in the Civil War, and was president of the Union Pacific Railroad for six years.

RE UPLANDS ASSESSMENT.

To the Editor:—It would be hard to find a more determined effort to misrepresent the facts than that put forward by Mr. W. F. Alder in your issue of the 19th, in the Uplands by-law question.

At a public meeting held last Wednesday I endeavored to make perfectly clear not only the details of the agreement that had been entered into, but also the reason (a vital point) which Mr. Alder entirely ignored. Why it was necessary that the present agreement be made, Mr. Alder was present at that meeting and was granted the privilege of addressing it, so that he was fully aware of all the facts going into the print.

The taxpayer should clearly understand that, under the by-law as drafted, the municipality will receive title once and for all to the roads, sewers, water and telephone systems in the Uplands, all of which at present belong to the Uplands Company. The serious nature of the matter will be made more understandable if we consider the Uplands Company's position (with the Uplands Company owning all the utilities in the subdivision) that if the land abutting on these roads, sewers, water and telephone systems were vacated up to the municipality, they could not possibly be sold to the municipality because the purchasers could not connect with the sewers and water system unless the Uplands Company gave consent, which they would be hardly likely to do.

The utilities above referred to have cost the Uplands Company to purchase from the Province for the sum of \$27,431—the amount of the taxes the company already owe us—plus giving the ten-year flat assessment of the land. Once these improvements are made, the property of the municipality we shall be able, should the land revert to us, to sell it for a much higher price. Our own ability to give the purchasers the necessary sewerage and water services.

Mr. Alder states that we can only collect a beggarly \$9,000 in taxes on the land unless we increase the present high rate. Will he be good enough to tell us how much we could collect if the land were sold to us, with our ability to sell it gone, unless we acquired title to the utilities, referred to? Will he also advise us who will pay the cost of the sewerage and water improvements if they revert and taxes collected from the land abutting on it, or does he fondly imagine that the municipality could add a new \$40,000 of improvements to the \$9,000 of improvements to the land, and then, remembering also that you cannot indefinitely collect taxes from the Uplands, or anyone else, and give nothing in return?

I would also remind Mr. Alder that, if, as he states, several thousand people do take up their residence in the Uplands, the improvement tax will be a small part of the cost of police, fire and school service that is given them. As a matter of fact, during the last fifteen years there has been a steady increase in the number of children in the Uplands, and most of the children go to private schools—in other words, the \$150,000 of taxes collected in the Uplands during the last fifteen years (in view of the fact that they have done all the main tenance themselves) has almost entirely gone to help defray the cost of the other residents of Oak Bay—Messrs. Ross Sutherland, W. J. Alder and the writer included.

At the public meeting already referred to Mr. Ross Sutherland made the definite statement that the roads, sewers and water systems, etc., were to be sold to the municipality, and that the municipality would be responsible for the maintenance of the same. It is a legal matter, and I believe he is of a legal mind. Personally, I am absolutely satisfied that the Uplands Company is not going to leave no doubt in the minds of the public, the council, at the request of Mr. Sutherland, have secured the K.C. to give his opinion on the point, a course that I consider entirely unwarranted, and which places on the taxpayer a cost—owing to the inability of Messrs. Sutherland and Alder to grasp the real facts—he should not be called upon to bear.

One need go no further with Mr. Alder's polemic than to analyze the second and last paragraph of his letter. In the second paragraph he states, "The Uplands Company, I am informed, paid well over \$1,000,000 for the land, which they now own for \$1,000,000 means I hardly know, but let us assume \$1,000,000, add to this \$500,000 for the improvements and we have a cost of \$1,500,000, and in his last paragraph he states, "There is no danger of our having to take over a \$3,000,000 property, etc." Where does the other \$1,500,000 come in? It is such an obvious and deliberately misleading statement as these that leave the public bewildered.

As a matter of fact, at the meeting referred to, Mr. Sutherland, a former manager of the company, made the statement that the whole property could be purchased for approximately \$250,000.

Mr. Alder, there are none so blind as those who won't see, and none whose attitude will damage a municipality more than those who are actuated more by antagonism to the opposition and loyalty to the remainder of his party (four out of five of the Oak Bay Voters League members on the council are supporting the by-law) than by conscientious belief.

I trust that when Mr. Harold Robertson's report is received Mr. Alder will realize that the council have made a very good bargain in the interest of the municipality, and that he will add what support he has rather than to help to place the municipality in a position that it may be very hard to handle.

J. T. ANSCOMB, Reeve.
P.O. Box 1294, Victoria, B.C., April 20, 1923.

ACTION ON OLYMPIAD

New York, April 2.—Brig-General Charles H. Sherrill of New York, a member of the International Olympic committee, told the American Olympic Association Saturday that the committee had "definitely and decisively" decided to hold the 1924 games in Amsterdam, Holland, and the 1928 games in Los Angeles.

Vaccination in Europe

A great wave of smallpox swept over Europe in the years 1870 to 1876, and during the Franco-German War it was an object lesson to the victors of the results of efficient and non-efficient vaccination as affecting an army.

We know that the Prussian Army was vaccinated up to the year 1870, and the whole German field army of over a million men, though much exposed to infection, lost only 297 by smallpox, while in the French Army one garrison town alone in France (Langres) lost more than this number (334). Monsieur Thiers described smallpox in Belgium as more dreadful than the war itself, and Colin reported 1,074 deaths of soldiers in one hospital alone—Bicetre, in Paris.

Germany believed in vaccination but lacked organization in carrying out her law, so that in 1849, the year before the war, less than one half of her recruits were vaccinated. Germany took these lessons to heart, and in 1874 passed her vaccination law by which it was enacted that every child, within the second year of life must be vaccinated, and every school child revaccinated within its twelfth year. From the above facts of the smallpox epidemic of 1870-76, it is evident that the vaccination of all school children, and the result was that smallpox epidemics became unknown.

THE WEATHER

Daily Bulletin Published by the Meteorological Department.

Victoria, April 20.—5 a.m.—The barometer is rising over Northern B.C. and fair weather is becoming general, accompanied by frosts which will extend from the Lower Mainland to the Prairie Provinces.

Reports

Victoria—Barometer, 29.85; temperature, maximum yesterday, 51; minimum, 41; wind, 6 miles N.; rain, .07; weather, fair.

Vancouver—Barometer, 29.85; temperature, maximum yesterday, 51; minimum, 41; wind, 4 miles E.; rain, .01; weather, clear.

Kamloops—Barometer, 29.74; temperature, maximum yesterday, 51; minimum, 31; wind, 4 miles E.; rain, .01; weather, clear.

Nelson—Barometer, 29.74; temperature, maximum yesterday, 51; minimum, 31; wind, 4 miles E.; rain, .01; weather, clear.

Seattle—Barometer, 29.74; temperature, maximum yesterday, 51; minimum, 31; wind, 4 miles E.; rain, .01; weather, fair.

San Francisco—Barometer, 29.74; temperature, maximum yesterday, 51; minimum, 31; wind, 4 miles E.; rain, .01; weather, fair.

Pittsburg—Barometer, 29.74; temperature, maximum yesterday, 51; minimum, 31; wind, 4 miles E.; rain, .01; weather, fair.

Cumberland Wins B.C. Soccer Title With Great Ease

Vancouver Champions Were Easy Pickings For Island Miners; Score 4-1

Vancouver, April 20.—Vancouver Island football teams seem destined to keep The Province Cup within their borders. Two years ago Lady-smith took control when they trimmed Varsity in the senior provincial final. Last year the same team won the honors 2 to 0 at the expense of St. Andrews and on Saturday afternoon at Athletic Park before the largest crowd of the season, Cumberland managed to play the Scots at their own game—the short pass—and finished three goals up by 4 to 1. Play was fairly even in the opening half, although both sides made many mistakes on account of the greasy condition of the ball and misplays were frequent.

HALF-TIME SCORE 2-0

In the first half, St. Andrews tried their usual waiting-out game until they could measure the strength of their opposition and the interchanges were fairly even until twenty-two minutes of play, when Heyland, inside right to Hannerman, took a cross from Hitchens and caught Boyd flatfooted, the Scots' custodian never moving in his tracks.

Less than a minute later Hitchens shot a thirty-yard drive which Boyd was lucky to tip over the bar. On the corner kick Fowler tipped the ball into the net on an admirably well placed ball. After the second half started Graham raced through centre field and while Mortimer and Blair were figuring who was to take the ball, Graham kept on going and by some clever footwork rounded the pair and tapped the ball between the posts. It was a very clever piece of work.

Heyland put the game on the ice for the new champions when, after thirty-three minutes of play, he took Fowler's cross and shot straight into the net after the latter had got away from Sheldon in the field. With ten minutes to go Hitchens brought the island supporters to their feet when he took the ball from Fowler after Hannerman had shot over a clever cross and Heyland easily on the opposite side of the net.

Art Stokes of Victoria handled the game well.

To Settle Boxing Fued Between Two Welterweight Boys

New York, April 20.—Final disposition of the Mickey Walker-Dave Shadle-welterweight pugilistic war, made-to-morrow by the State Athletic Commission before whom the two boxers have been summoned to sign a bond of \$10,000 each guaranteeing a match at 147 pounds for the championship.

Walker has been ordered to post his forfeit before the board will permit him to box Harry Greb for the middleweight title at the Polo Grounds June 19, while the forfeit from Shadle has been required on the demand of the champion, who has advanced the charge that Shadle can no longer make the weight, and would take advantage of the challenge to fight for the middleweight crown should Walker be successful in transferring Greb's mantle to his own shoulder.

FINE HIGH JUMPS

Edmonton, Alta., April 20.—Ray Eagle, George Girvan's classy jumper, negotiated the hurdles at the arena Saturday night at 5 feet 10 inches over loose poles and straight pins, and was unbeaten by either Barra Lad or Mademoiselle. Barra Lad, a stable of Calgary, Ray Eagle and Mademoiselle tied in the first match at 5 feet 10 inches, while in the second the Edmonton jumper cleared 5 feet 10 inches, as did Barra Lad. However, Barra Lad had conceded the Edmonton horses three inches, which meant that the local jumper won, but the judges refused to give a decision on the event. Barra Lad later took the hurdles at 6 feet 0 inches in an exhibition jump.

BOSTON MARATHON

Boston, April 20.—Long distance runners or many nationalities from Canada and from man; sections of the United States were gathered here last night on the eve of the running of the twenty-ninth annual American Marathon race of the Boston Athletic Association to-day over a course 26 miles 385 yards long, from Hopkinton, Mass., to Boston. The winner of this year's race will carry off the national A.A.U. Marathon Cup.

BREAK UP BALL POOL

Pittsburg, April 20.—With the arrest of two men, police to-day believe they have broken up the operations of the Fort Erie baseball pool, said to have representatives in the leading cities of Canada and the United States. Detectives seized lottery tickets having a face value of \$100,000, said to have been the week's supply for Pittsburg. The men arrested gave their names as Edward Meyers and H. A. Dickey.

PULPWOOD EMBARGO MOVE MEETS WITH VIGOROUS PROTEST

Settlers Who Sell Timber to Augment Farm Income Fear Big Price Drop

Ottawa, April 20.—Strong opposition is developing in eastern Canada to the present widespread demands for an embargo or a heavy tax on the export of pulpwood from this country.

Chemical Pulp Interests Anticipate U.S. Reprisals if Canada Halts Export

By Times Staff Representative

Two new and important groups in Canada have joined in protesting against any such restriction—settlers who have been making a living by cutting pulpwood and certain manufacturers of chemical pulp who fear that curtailing the possibility of an embargo would bring ruinous serious reprisals from the United States.

FEAR SLUMP

Settlers in eastern provinces who have been selling their pulp timber in small quantities for export to the United States are greatly alarmed over the possibility of an embargo. Such an embargo, they say, would cause an immediate slump in the pulpwood market. This would reduce the price which they now receive for their wood and possibly destroy all market for it in some places. Many settlers, it is said, are largely dependent upon their sale of pulpwood as they have not yet got their farms into a state of development where they will support them.

While the Canadian Pulp and Paper Association has called upon the Government to establish a graded export tax on exports certain groups closely associated with the manufacture of chemical pulp in Canada are protesting against this stand. They are arguing that the whole question be reopened in the Association and meanwhile representations against the proposed export tax are being made to the Federal Government and to Provincial Governments.

REPRISALS

The interests who are now joining the settlers in fighting the embargo idea fear that the United States would retaliate against such a move

Mother Will Be Happy to Own an "Easy" Vacuum Electric Washer

It will save her strength, save her time, and give her more freedom to enjoy life. But, apart from all this, The Easy Vacuum Electric Washer will add months of life to the clothes it washes, and it washes the most delicate draperies as well as the heaviest clothing.

The air pressure and suction-cup principle of the Easy Vacuum Electric Washer has been accepted as the correct washing principle since Grandmother's day, and in the modernized "Easy" way makes it a thousand times more effective. See the "Easy" in operation and you will be convinced it is the Washer you will own. Demonstration on the Lower Main Floor. Or phone for home demonstration. Easy terms.

PROGRESS MADE ON PLANS FOR PAGEANT

Spectacle "Richard Coeur de Lion Will be Ambitious Effort"

Organization of the pageant "Richard Coeur de Lion," as a feature of the Crystal Garden carnival, is now well under way. Director Major W. Taylor having opened an office at 402 Fernberjon Building, telephone 1296.

With seventy vacancies yet remaining in the cast for the pageant, Major Taylor will be glad to interview ladies and gentlemen desiring to share the presentation. Costume dresses of the thirteenth century will be provided by the organization, and will become the property of the participants.

Vacancies await four good horse riders, mounts being provided for the pageant and practice. The animals have already been put through preliminary trials with great success. Major Taylor is seeking the loan of a mule and a donkey, both quiet to ride, for important parts in the presentation.

Dressmaking is well in hand, some of the materials being imported from England. Manufacture of suits of armor is being undertaken by the Clyde Sheet Metal Works, and the first appearance of the knights is expected to prove an interesting feature of the riding rehearsals.

Cabinet makers have commenced manufacture of the special woodwork required for the pageant.

BEDTIME STORY

Uncle Wiggly is Lost

Copyright, 1925, by McClure Newspaper Syndicate.

(By Howard R. Garis)

Once upon a time Uncle Wiggly started out from his hollow stump bungalow with a strange look on his face. He also wore his pink, twinkling nose.

"Where are you going?" asked Nurse Jane Fuzzy Wuzzy, who was getting the clothes ready for their Monday morning bath. "You look very determined; as if you were going to have your own way."

"I am," answered Uncle Wiggly with a laugh that showed his strong white teeth. "I am going off to the deep, dark, dismal woods to look for an adventure!"

"Oh, please don't do that!" begged the muskrat lady housekeeper. "You have never been to those woods!"

"All the more reason for going," said Mr. Longears, contrary-like. "You will see!" sighed Nurse Jane.

"Then I will find myself and come home," laughed the rabbit uncle. So off he hopped over the fields and through the woods, where he often had adventures. But this time he was going farther off—to the deep, dark, dismal forest.

Just as he was hopping out of the woods near his bungalow, Uncle Wiggly saw Sammie and Susie Littlefoot, the rabbit children, gnawing bark from a clump of white birch trees, near the edge of the forest. The birches stood up like tall, slim ladies in pale dresses.

"Do not gnaw too much bark from the trees," warned Uncle Wiggly to the little rabbits. "You must not take too much from any one tree. And do not eat off the bark in a circle all the way around a tree, for that is a bad thing. Be careful of the beautiful white birches."

"We'll be careful, Uncle Wiggly," promised Sammie. "We'll only gnaw half a circle of bark from any one tree," said Susie. "That is as it should be," spoke the bunny gentleman. Then, leaving his little nephew and niece at the clump of white birches, Uncle Wiggly hopped on toward the dark, deep, dismal forest.

"Uncle Wiggly was kind and thoughtful toward us," whispered one white birch tree to another. "Yes," was the answer. "If he ever made help I hope we may be there to give it to him." But the trees did not dream they could ever help the bunny.

However, as it happened, Mr. Longears found no adventure in the black forest. He hoped this way and he hoped that way, but nothing happened, and it was so dark and lonesome in the forest that not even the birds sang.

"I shall go back to my own woods," thought the bunny. "There I always have adventures." But, alas! When he started to hop out of the deep forest night had fallen and Uncle Wiggly found himself in the dark. "I can hop across the meadow in the dark as well as in the daytime," he said to himself.

So he started bravely off, but he had not gone very far before he bumped into a large rock. "I must be on the wrong path," said the bunny, rubbing his pink nose.

hours is a better rule for some persons. Fermentation in the lower bowel, due to bad elimination, is an all-too-common experience. This appears to cause a damming back of the gases and a disturbance of the digestion.

"You are not treating your stomach as you should if you persist in eating things which long experience has taught you do not agree with you."

"When you treat your stomach, treat it right."

Canada's Fruit Total in 1924 Less Than in Year 1923

OTTAWA, April 20.—Canada's production of commercial fruits during the past year showed a decrease of \$8,902,912 in value as compared with that during 1923. The total value of these fruits grown in 1924 was \$24,356,431, while the figure for 1923 was \$33,259,343. The decrease, according to the Dominion Bureau of Statistics, was due principally to smaller quantities.

Returns received, covering the production of some of these commodities for 1924, with the corresponding figures for 1923, in brackets, are as follows:

Apples, 2,247,270 barrels, value \$18,777,667; (4,498,183, \$34,489,309).
Pears, 795,393 bushels, value \$471,924; (227,335, \$556,587).
Strawberries, 5,532,000 quarts, value \$1,398,910; (3,652,200, \$1,513,230).

FOLIAGE ABSORBS RADIO
Radiophones which have erected aerials during the winter had best make sure that if there are trees in the vicinity, no part of the aerial is less than six feet from the nearest green leaves. Foliage "soaks up" radio energy like a sponge.

A WET WORLD—This was a wet "world" until Seattle police noticed its peculiar equator. Examination revealed that the northern hemisphere was detachable and that within the globe was an oasis—a liquor cache. Theoretically, police say this cache may be within the Volstead law as all intoxicants in the decenter were below the equator.

SUBMARINE ACTIVITY WILL BE DISCUSSED AT RIO CONFERENCE

Washington, April 20.—One of the issues of the World War and of the Washington Arms Conference of 1921 has been revived for discussion at the Pan-American conference of jurists, to be held sometime this year at Rio de Janeiro.

Application to submarines of rigid rules of visit and search is contemplated in the draft convention on maritime neutrality prepared for consideration at Rio as a part of a codification of American international law.

"Belligerent submarines are not under any circumstances exempt from the rules," says the draft convention, after specifying that merchant craft overhauled by war vessels may not be attached except on refusal to submit to visit and search after warning, or when they refuse to proceed as directed after seizure. "If a submarine cannot capture a merchant vessel in conformity with these rules, existing international law requires it to desist from attack and from seizure and to permit the latter to continue on its way."

SAFETY DEMANDED

The rules also specify that merchant ships may not be rendered unseaworthy until the crew and passengers have been first placed in safety. There are twenty-nine articles in the proposed convention, which are intended to be "necessary to safeguard especially commercial freedom and to relieve neutrals of the needless burden and responsibility under which they labor to-day in observance of maritime neutrality." The rights and duties of neutrals covering prize rules, internment and other matters are set forth, but chief interest lies in an appendix headed "The American republics express the following: French word is translated variously in diplomatic usage to mean 'hopes' or 'recommendations.' Among statements which follow are:

"That it is formally forbidden to maintain a commercial blockade, in any manner whatsoever, of the ports of belligerents and the maritime zones basing their own claims."

PRIVATE PROPERTY

"The inviolability of private property at sea: Merchant ships of belligerents as well as of neutrals must in no case be subjected to confiscation, and still less be sunk for any reason or pretext whatsoever. If the said ships are contrary to war, the latter shall be either confiscated or destroyed by the captor."

TO LOOK OVER PAPERS

"That the right of search be abolished, and that it be established that the local authorities of each American republic shall give the papers of merchant ships which depart from the said republic destined for a belligerent port."

Belligerent ships cannot stop the merchant ships of neutral American republics or those belonging to the other belligerent, except to demand the production of the ship's papers thus vied. Belligerent ships may, in spite of the search of the merchant ships, if it results from the search of the ship that the ship does not carry contraband of war, the searching ship may be condemned to pay compensation for the injury caused. If the ship searched carries contraband, the American republic whose authorities have viewed the false passport must pay compensation. If the ship is not furnished with papers duly vied, then the ship is searched according to existing international practice without occasioning indemnity."

PRINCESS MARGUERITE WILL ARRIVE IN HOME PORT LATE TO-DAY AFTER LONG SEA TRIP

Capt. R. W. McMurray Bringing Fine New Steamship Here From Clydebank for B.C. Coast Service; No Public Reception Aboard Vessel To-day; Will Operate With Princess Kathleen Shortly.

The Princess Marguerite, second of the two fine steamships which are to be added to the B.C. Coast Service of the Canadian Pacific Railway Company, arrives at port here this afternoon between 4 and 5 o'clock, according to announcement from Capt. J. W. Troup's office here to-day. The new Princess, completing her run from Clydebank, where she was built, to Victoria has covered thousands of miles, and has encountered all sorts of varying weather on her way, thoroughly proving her sea-worthiness and power, and once more showing that Scotland builds as fine ships as can be found anywhere in the world.

FINEST OF THEIR TYPE

The Princess Marguerite and her sister ship, the Princess Kathleen, which is already in this port, are regarded as the finest ships of their type afloat. They will be purely coastal vessels, but their appearance is more like that of the ocean liners which ply the Pacific.

Capt. Robert W. McMurray, who brought the Princess Kathleen to Victoria from Clydebank, is also commanding the Princess Marguerite. He was overflowing with satisfaction when he arrived in port with his first charge, and the Marguerite is said to be in every way the equal of the first ship and even slightly faster, owing to newer propeller design.

NO RECEPTION

The Princess Marguerite is not being rushed to this port and there is no reception planned for her when she does arrive. The public are not to be admitted to the ship and the vessel will be subjected to inspection and outfitting for her early entering into the service of the company. It is expected that she will be in running order and ready for the triangle service, in which the Princess Kathleen, early in May, CONVOY OF LAUNCHES

Several launches were preparing to leave the inner harbor here early this afternoon, and will meet the Princess at William Head, where she is expected to arrive about 5 o'clock. These little ships will be her convoy when she steams into the inner harbor here this afternoon. There was a stiff northwest wind outside this morning but the Marguerite felt it not at all and made excellent time in her final run from San Pedro to this port.

SEAL HERDS WOULD BE EXTERMINATED IF TREATY ENDED

C. H. French Warns Victoria That Lapse of Treaty Would Be Disastrous

At one time Victoria's inner harbor was the receiving point of thousands of pelagic seals, which were taken from the wharves of the North Pacific and from the vicinity of the Pribilof Islands. Years later the upper harbor was the resting-place of seals, and the sealing industry ended with the signing of the pelagic sealing treaty, which expires next year.

C. H. French, manager of the fur department of the Hudson's Bay Company in British Columbia, who addressed the B.C. Historical Association last week, claims that if the treaty which protects these seals is not renewed between Russia, Japan, the United States and Canada the herds, which are but slowly growing in the North Pacific, will be utterly exterminated.

"Any man who wants to cut that treaty out is crazy," said Mr. French. He is firmly convinced, he told the society, that should the treaty be allowed to be dissolved by those parties concerned, the American sealers, who are but slowly growing in the North Pacific, will be utterly exterminated.

Mr. French says that Canada, owing to the treaty, is not getting a fair share of the profit to be derived from the seal catches which are allowed now. This country gets fifteen per cent of the value of the annual American catch. The pelagic seal trade is in London, England.

Canada should arrange that she take her share of the sealing catch in pelagic, he claims. Therefore he advises that the treaty be re-inforced, with certain changes which would make it more favorable to the Dominion.

If Mr. French points out, the treaty was not renewed, the Americans would have an advantage over all others, for the seal rookeries lie in their territory for the most part it would not be two years before the seals of the Pribilof Islands would be exterminated, the low price of sealskins and the cost of equipping and building a ship, paying seamen and hunters, would allow for no profit in pelagic sealing, he declares.

"The day of the sealing fleet is gone forever," Mr. French affirmed.

TOURISTS ENJOYING WONDERFUL CRUISE

H. W. Pontifex, One of Empress of France's Passengers, on Way to London

"The Empress of France, which will be in Victoria on May 2, is still touring and visiting the ports of interest on the Pacific, and making a leisurely journey across the ocean from the Orient now," said H. W. Pontifex, a passenger aboard the Empress of Russia when that ship docked here this morning from the Far East, but who previously was aboard the Empress of France and a member of the world cruise party. "The crowded cabins on the great Empress bespeak the popularity of the world cruise and the lively interest of the passengers during the entire trip is a certain indication of the excellence of arrangements which have been made for their entertainment."

Mr. Pontifex is in a hurry to return to England, business having taken him away from the Empress of France when she arrived in Yokohama. Consequently he went aboard the Empress of Russia in that port, and is now about to make a hurried trip across Canada, eventually taking ship at Montreal, where navigation has only just been opened.

"I wonder that there are any souvenirs or trinkets left in the Orient," said Mr. Pontifex. "There have been thousands of dollars worth of curios and art trophies picked from the stalls of the merchants of the Far East, and the passengers are laden down with their treasures."

Mr. Pontifex says that the opportunity for enjoyment on these world cruises is wonderful. Journeying from land to land, the voyage is an education in itself, for there is ample opportunity to study and become slightly familiar at least with the customs and work of the various peoples with whom the tourists come in contact. From the overlying summer of the tropics to the more congenial climate of Japan in early Spring, and everywhere running in and out the pooks and corners of Vancouver, tourists are approximately 2,000 tons. Much of this is for transshipment to the East of Canada and to points in the United States. The ship is loaded with the Canadian Pacific lines on special freight train out of Vancouver. The Empress left here at 9 o'clock for the mainland.

MCLEOD SHIP PLAN IS NOT ACCEPTED

Ottawa Government Unwilling to Subsidize Line; no Buying of Stock

By Times Staff Representative
Ottawa, April 20.—The Federal Government will not accept the proposal advanced by Donald McLeod, British shipping operator, for the establishment of a transatlantic steamship line, according to reliable information obtained from Cabinet sources to-day.

Repeated communications addressed to the Government from Mr. McLeod have been acknowledged without enthusiasm by the Cabinet, and there is very little possibility that the matter will go farther. The Government, it is said, objects to buying stock in any company and it is this feature of the McLeod proposal which will prevent its acceptance.

The N.Y.K. steamship Toyama Maru will arrive here to-morrow night, according to wireless messages received from the ship. H. H. Hobbs, agent for the Nippon Yusen Kaisha, stated here this morning that the ship has over 500 tons of local cargo for local discharge and about 500 tons optional.

The Toyama Maru brings the new manager of the Nippon Yusen Kaisha, who is in Seattle together with his family. K. Hotta will take up his position in Seattle as manager of the company's branch offices there and will attend to the great volume of business which the N.Y.K. handles through the port.

The Toyama Maru has a rich cargo. Among the freight for Victoria are 25 cases of silk goods.

NEW LONG DISTANCE TELEPHONE RECORD

Nelson, B.C., April 20.—The first telephone conversation between the Nelson district and Ottawa, as far as is known, took place last evening when Mrs. W. J. Mohr of Willow Point was called up by her son, C. M. Mohr, the local mining man, now in the Canadian capital. The connection was by Nelson, Spokane and San Francisco, and Mrs. Mohr states the conversation was remarkably clear.

EMPERESS LINER IN AFTER FAIR VOYAGE

Good Weather Lasted From Yokohama to Victoria, and Russia Docked on Schedule

The Empress of Russia experienced a pleasant passage en route from Yokohama to Victoria. The ship docked here this morning at 7 o'clock. Off the coast of Vancouver Island a stiff gale was blowing from the northwest, but the big vessel suffered no delay on its account. Two hundred tons of cargo were put ashore here.

The Empress had \$2,000,000 worth of silk for discharge at Vancouver. Part of this silk was loaded at Yokohama, but it was learned aboard the ship to-day that the shippers of Yokohama are finding keen competition with the Kobe silk exporters. There is great rivalry between the two ports and although Yokohama still holds a good deal in the race for honors, but Kobe is gaining slowly.

Passengers who came ashore here included Mr. and Mrs. J. L. MacKintosh, Mr. and Mrs. P. A. Mackintosh, and two sons, and Lewis H. Powell. Altogether there were 101 saloon passengers on the ship. There were over fifty on the second cabin list, and almost 200 traveling steerage, bringing the total list up to 350. The general cargo to be unloaded at Vancouver totals approximately 2,000 tons. Much of this is for transshipment to the East of Canada and to points in the United States. The ship is loaded with the Canadian Pacific lines on special freight train out of Vancouver. The Empress left here at 9 o'clock for the mainland.

MEN OF SHAWNEE FLEE FROM LAW

Charged With Perjury in Quadra Case After Rum Ship's Capture

San Francisco, April 20.—Jacob Schyblinger and J. J. Dobson, members of the crew of the United States coastguard cutter Shawnee, which seized the Canadian steamer Quadra, are fugitives from justice charged with perjury in connection with their testimony in the Quadra case. Federal officials announced Saturday.

Testifying for the defence, both men denied the contention of the prosecution that the Shawnee had ascertained by frequent soundings that the cutter was well within the treaty limit when she took the Quadra as a prize. Schyblinger and Dobson testified that no such soundings were made.

OBITUARY

The remains of the late Mr. Alvin Button, who passed away last Monday evening at the St. Joseph's Hospital, will be laid to rest in the family plot at Ross Bay Cemetery this afternoon. Funeral service will be held at the Thomson Funeral Home, 1625 Quadra Street, at 3:30 p.m.

Rev. H. V. Hitchcock, of St. Mary's Church, will officiate.

There passed away yesterday afternoon at St. Joseph's Hospital Marjorie Evelyn Price, infant daughter of Mr. and Mrs. Walter J. Price of Cedar Hill. The cortege proceeded from the Thomson Funeral Home, 1625 Quadra Street, at 1:50 today to St. Andrew's Cathedral, where service was held at 2 o'clock by the Rev. Father John F. Silver, after which the remains were laid to rest in Ross Bay Cemetery.

Singers who are taking part in the festival choruses to be produced in connection with the May 24 and June 1 carnivals are reminded that there will be a rehearsal at the High School auditorium on Tuesday evening, April 21, at 8 o'clock.

Breaking into the premises after dark last night thieves stole a quantity of candy, cigarettes and canned goods from the grocery premises of William Berryman, Sluggers. The Saanich police are working on the case.

NEWS IN BRIEF

The weekly Liberal card party will be held at the Esquimalt Liberal rooms to-night.

The proposal of the tourist trade group of the Chamber of Commerce for a clean-up, paint-up week was endorsed by the Chamber to-day.

A special meeting of the Oak Bay council will be held to-night at 8:15 o'clock in the municipal hall. Discussion will take place on several important matters, including the Up-lands agreement.

The Men's Service Club of the Victoria City Temple will meet to-night at 8 o'clock at "Temple Hall." The subject for discussion will be "How Can Victoria Help Herself Industrially?" Rev. Dr. Clem Davies will preside.

Little Ruth J. H. Oldfield, the first baby born at the Provincial Jubilee Hospital, was the daughter of Mr. and Mrs. K. J. Oldfield, not of Mr. and Mrs. Clarence Oldfield, as stated on Saturday.

Unless the Premier decided to take a strong hand in the matter there was little hope of securing Provincial Government aid to the paying of the road to Butchart's Gardens from the West Saanich Road, C. P. W. Schwengers reported to the Chamber of Commerce directors to-day. Dr. W. H. Sutherland, Minister of Works, had practically turned the proposal down, he said.

Charles D. G. Roberts, the eminent Canadian author now visiting Victoria, has been compelled to cancel his appointments to address the Kiwanis Club luncheon to-morrow and the Native Sons at their evening meeting. Miss Chesley, an eminent psychologist of Seattle, will address the Kiwanians on "Better Business."

A claim against a rent-collecting agency in the sum of \$23 alleged to be due to plaintiff is being tried before Judge Lampman in County Court to-day. P. J. Sinnott appears for the defendant, and J. E. L. Tait for the plaintiff. W. E. Sheppard and E. E. Mitchell, respectively. The hearing continues.

Support to the tourist trade group's suggestion that Victoria merchants accept United States money at par, despite any difference of exchange, was given by the Chamber of Commerce directors this afternoon. The liquor stores were quoted as charging a discount on United States money.

Debate upon dismissal by the Saanich Council of the entire waterworks department staff will be the chief business before a special meeting of the Ward Two Ratepayers' Association to be held to-morrow evening at 8 o'clock at Cloverdale School. All members of the council have been invited. Reeve Macneil and Councillor Graham of Ward Two have promised to attend.

The fortnightly luncheon of the Real Estate Board of Victoria, to be held at the Chamber of Commerce on Wednesday next, will be of more than usual importance. The special committee investigating succession duties will report. Chairman A. R. W. Pemberton will report on the city manager plan. Alfred Carmichael will report as to the city's powers in town planning, and Chairman Patterson of the committee aiding in selling city property at the Home Products firm will present an interim report.

A most enjoyable evening was spent on Wednesday at the Harmony Hall, Fort Street, when the Victoria Boys' Orchestra gave an "at home" to the parents and friends. The leader, Charles Rowles, who for the past four years has taken so much interest in the young musicians, provided a programme which will long be remembered. These boys often provide an evening's amusement at the Old Men's and Old Ladies' homes. During the evening violin solos were rendered by the Masters A. Johnson and G. Tait, and a few comic stunts by Chas. Rowles. After refreshments had been served, dancing was enjoyed till 11 o'clock.

In so far as this action is based upon actual fraud, it is dismissed," stated His Lordship. "I hold that all acted honestly and in good faith throughout the transaction in question. There is no fiduciary relationship asserted in the pleadings as having existed between Jones and plaintiffs or between A. W. Jones Limited and plaintiffs; nor does the evidence show the existence of any such relationship. Neither Jones or A. W. Jones Limited owed any legal duty to plaintiffs. The action against Jones in his personal capacity and against A. W. Jones Limited is, therefore, dismissed with costs."

The action remains the action for rescission against Jones and Lutton as trustees of the Vernon estate and the action for damages against Pooley and Mrs. Lutton, as legal representatives of her deceased husband.

Reading guilty to frequenting an opium den, Lee Gee and Sing were each fined \$15 and costs before Magistrate Jay on city police court this morning. Sergeant Healey told of a raid made by the police against a rooming house on the premises. Strong doors and bolts were the police and stayed their entry for twenty minutes. A small smoking equipment was found.

The police met with less success in a similar raid on Saturday evening on premises where three Chinamen made their headquarters. The police chopped their way through strong doors and bolts and stayed their entry for twenty minutes. A small smoking equipment was found.

Lee Look, charged with driving a "one eyed" car through the streets after a warning from the police was not heeded, was fined \$15 and costs on city police court this morning.

Patricia Smith, charged on remand with sale of liquor, was remanded until Thursday for trial, at the request of Stuart Henderson, counsel for the accused.

Died This Afternoon

BILLY MUIR

ATHLETE PASSES AFTER LINGERING IN ILL HEALTH

"Billy" Muir Failed to Rally From Injuries Sustained Two Years Ago

Billy Muir, former well-known Victoria athlete who for the last two years has been a helpless cripple as the result of injuries to his spine in making a 150-ft. dive at the V.I.A. clubhouse at the Curtis Point passed away to-day.

Muir was only twenty-two years of age. Two years ago last August before 500 people Muir took a spectacular dive from the diving tower at the Gorge at a Pacific Northwest gala. In many dives previously he had thrilled crowds but on this occasion he failed to make the perfect dive necessary from such a height. He was seen in difficulties and his team mate Bill Calder and Audrey Griffin, well-known Victoria swimmers dashed to his aid.

Muir was twenty-four years of age and was the son of Mr. and Mrs. Joseph Muir, 466 Vancouver Street. He was a native of Ayrshire, Scotland, and came to Victoria in 1910. He attended the Victoria schools and was known as one of a family of seven brothers and two sisters every one of whom was either gifted as a musician or a sportsman. He had one brother, Alan, who was killed in the war. Another brother, Archie, served with distinction in the flying corps.

William Muir was educated in the public schools. He was a popular member of the Y.M.C.A. and was connected with many branches of sports. For over two years he had cheerfully faced his tragic illness which suddenly struck him in the prime of youth from a capable athlete to a state of constant suffering. We always hoped for a turn that would help him to recover, said his brother John, music teacher of Lady Smith, who came to the city in anticipation of the end. A week ago, however, we saw the end was inevitable.

Woolworth action dismissed by court.

Victoria Agents for Vernon Estate Acted Honorably Finds Mr. Justice Murphy

Vancouver, April 20.—Following a nine-day trial in Victoria, Mr. Justice Murphy has dismissed the action of Woolworth et al vs. Pooley et al in which accusations of fraud and negligence had been made against H. H. Pooley, who was Conservative leader in the Legislature at the last session.

"In so far as this action is based upon actual fraud, it is dismissed," stated His Lordship. "I hold that all acted honestly and in good faith throughout the transaction in question. There is no fiduciary relationship asserted in the pleadings as having existed between Jones and plaintiffs or between A. W. Jones Limited and plaintiffs; nor does the evidence show the existence of any such relationship. Neither Jones or A. W. Jones Limited owed any legal duty to plaintiffs. The action against Jones in his personal capacity and against A. W. Jones Limited is, therefore, dismissed with costs."

The action remains the action for rescission against Jones and Lutton as trustees of the Vernon estate and the action for damages against Pooley and Mrs. Lutton, as legal representatives of her deceased husband.

PRESIDENT REVIEWS WORK OF CHAMBER

Much Accomplished During Year, C. P. W. Schwengers Points Out

Deal With Year's Activities at Last Meeting of Present Directorate

Addressing the last meeting of the Chamber of Commerce directors for the year 1924-5, C. P. W. Schwengers, president, expressed thanks for the co-operation that had been given him during his term. They could look back on the past year and say they had accomplished a good deal and paved the way for a greater Victoria. The meetings had been most harmonious and not a hard word had passed. Time would not permit enumeration of all the accomplishments during the year, but the Chamber had been responsible for the Mill Bay ferry. Through its efforts the logging bureau had been established and understood in the first two days of its operation \$12,000 in pay cheques had been cashed in the city.

ACCOMPLISHMENTS

Through the efforts of one of the Chamber committees the Canadian Western Co-operation plan had been rebuilt after being wrecked by fire. The Crystal Garden, which would soon be completed, was the realization of one of the Chamber's ambitions. The paving of the Highway to Nanaimo for which the Chamber had worked, would soon be believed to be an accomplished fact.

ISLAND UNITY

During the year the Chamber had worked for unanimity throughout the island and had met with great success in this direction. He was pleased to say that at the last meeting of the Associated Boards that he attended there was no sectional interest in evidence, and all worked for the general interest of the whole island.

The Chamber had much before it yet and with every hope of success in this direction. He was pleased to say that at the last meeting of the Associated Boards that he attended there was no sectional interest in evidence, and all worked for the general interest of the whole island.

Concluding, Mr. Schwengers expressed the hope that the newly elected directors and officers would work together as harmoniously as the present ones had done.

GYROS HELPED TO REDUCE TAXATION

Alderman Todd Congratulates Club on Its Civic Activities Back in 1922

Members of the Gyro Club were to-day congratulated by Alderman A. E. Todd for the active part they have taken in civic affairs. The clubmen were going through their business session at the Hudson's Bay luncheon to-day when a letter from Alderman Todd was read. The fact that a slight reduction was made in the taxes this year was attributed by the alderman to the Gyros civic campaign in 1922. The letter in part was as follows:

"The real earnest commencement upon the effort of reducing taxes was made in the year 1922. For this thanks are due to your organization for had it not been for your activity in strengthening the membership of the City Council at the municipal election, it is almost certain that the council that year would have again fallen short of a majority sufficiently intelligent and determined to take proper action and to adopt the common sense policies of 'Pay as you go,' 'Avoid Borrowing' and 'Economy with Efficiency.' Your action at that time has resulted in much good."

"Without being certain, I have much hope that next year, notwithstanding further increased charges, there will again be a taxation reduction. Continuation of sane policies by the municipal authority, cooperation upon the part of the public and moderate good luck, will certainly bring such further reduction about. And each year thereafter better and better."

The Gyros discussed matters pertaining to the forthcoming annual international Gyro convention which is to be held in Victoria and Vancouver.

NEPHEW OF NOTED INSURGENT HERE

L. R. Aguinaldo of Manila, representative of the Mantle Lamp Company of America, passed through the city to-day, arriving on the C.P.S.S. Empress of Russia. Mr. Aguinaldo is a nephew of General Emilio Aguinaldo, noted insurgent leader of the Philippines.

Less martial is L. A. Aguinaldo, his nephew who, turning his attention to the civil pursuit of commerce, draws from his ancestry a distinguished bearing and a ready courtesy that makes him an outstanding figure in the mans of the Philippines.

The Engineering Institute of Canada, Victoria branch, visited the Meteorological Observatory, Government Heights, on Saturday. F. Napier Denison gave a splendid address to the members who numbered forty-five. Mr. Denison's courtesy in showing and explaining to them the different instruments was much appreciated. The address was illustrated with slides depicting the weather and temperature charts, profiles of maximum and minimum temperatures and recent earthquake shocks. The new Milne-Shaw seismograph shown, and recent records were also explained. Patrick Philip proposed a vote of thanks on behalf of the Victoria branch members, and was seconded by J. N. Anderson.

Welcome to the Princess Marg

"GERALD CRANSTON'S LADY" OPENS AT CAPITOL WITH TEX HOWARD'S SYNCOPATERS

J. Farrell MacDonald in Butler Role Returns to Screen in Brilliant Piece of Character Work

Sharing the honors with Alma Rubens and James Kirkwood in "Gerald Cranston's Lady," which opens at the Capitol Theatre to-day is another well-known and equally popular actor, namely, J. Farrell MacDonald.

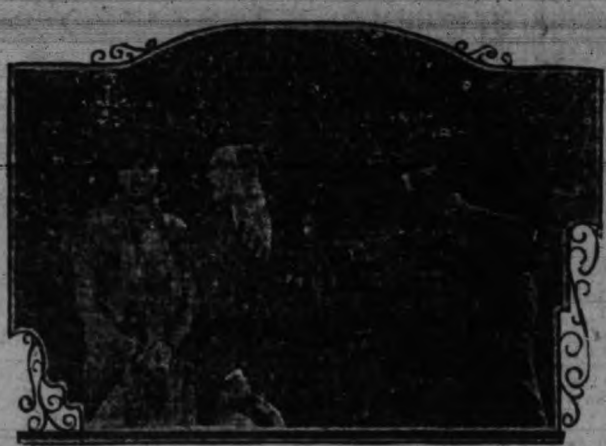

As usual, Mr. MacDonald has a character part that calls for humor and lots of it. This time he is "Rennie," good-natured old butler with a weakness for the cup that cheers and sometimes saddens.

In a manner as inimitable as it is laugh-provoking, Mr. MacDonald has taken hold of his role and made it one of the outstanding parts of the play. He has a way of putting over whatever he does in an unforgettable manner. He does not have to appear for more than a minute and yet he leaves an indelible impression.

His work in the role of Corporal Casey in "The Iron Horse" has all New York talking about him. As the champion track layer who "kin do anything," he was so strikingly human he was the sensation of the film.

Being a New Englander, Waterbury, Conn., and raised in the atmosphere of "Mrs. Wiggs and the Cabbage Patch," it is easy to see why Mr. MacDonald excels in character parts. Every New Englander is a character. When off their home lot they stand out like a whale in a brook.

Not satisfied with being in the vicinity which produced the Connecticut Yankee he got his education there and calls Yale his Alma Mater. The footlights attracted him after graduation and he hooked up with

Scene from Seven Chances showing at the Dominion

Comstock's Minstrels for a tour of the country.

Pursuing the stage for a Government commission to make a geological survey of the Rocky Mountains he followed the by-paths until Hollywood, like the sirens of old, ordered him to drop everything and hasten to her.

Since then he has been playing important parts. Next to Corporal Casey, before mentioned, he considers his best work the role of "Ferguson" in "Rags."

Tex Howard's Orchestra, which will be the extra attraction at the Capitol all this week, has arranged a brand new programme for his engagement here. Many new and novel effects will be introduced and Mr. Howard has promised that his programme will be the best he has yet given in this city. Some of the numbers to be rendered during his engagement here are as follows:

"Too Tired," "Somebody Like You," "Mighty Lak a Rose," "Say It With a Ukulele," "Alabama Bound," with novelty railroad effects.

Domestic Love Drama By All Star Cast at Coliseum This Week

"Locked Doors" Features Screen Leaders in Outstanding Roles

"Locked Doors," William de Mille's latest production for Paramount, will be the feature at the Coliseum Theatre this week. The story is a screen original by Clara Beranger. Featured in the leading roles of the production are Betty Compson, Theodore Roberts, Kathryn Williams, Theodore von Eltz and Robert Edison.

Miss Compson, in the role of Mary Carter, wife of an extremely wealthy architect, many years ago, goes to a mountain lodge with friends on a hunting and fishing trip. One day she meets a young man at a mountain stream under unusual circumstances. His trout fly is caught on a branch of a tree and she, in the spirit of fun, hooks her handkerchief to the fly. When he reels in his unusual catch he discovers her name, "Mary," on the handkerchief. He discovers her hiding place and with the days that follow a wonderful friendship arises between the two, kindling into love.

Thus does the romance begin. Mary is terrified when she realizes at his first kiss what their love really means, and she leaves him, telling him that this can never be.

Back in town the boy, John Talbot, played by Theodore von Eltz, confides in his friend and benefactor, Norman Carter (Robert Edison). Carter invites him to his home where Talbot's acquaintance of the mountain stream proves none other than Mrs. Carter. What a situation! And what a picture de Mille has made of it!

If you thought "The Fast Set" was de Mille at his best, see "Locked Doors!"

Little Elmo Billings, Jane Winton, of the Ziegfeld Follies, and others appear in the strong supporting cast.

The Famous Picture 'The Covered Wagon' Comes to Columbia

Thrilling Story of Pioneer Days Back in Victoria This Week

A magnificent epic of the early West is James Cruze's latest Paramount production, "The Covered Wagon," which will be the feature at the Columbia Theatre for three days, beginning to-day. This is a picture of the same name, and it is said to be one of the greatest photoplays ever seen on the screen.

The features embraced in this story are many and varied and include, among others, the start of 250 covered wagons from Westport Landing (now Kansas City) in 1845. The terrors of fording freshet rivers, prairie fires and the like are depicted with great realism. A buffalo hunt is one of the most exciting scenes.

Old Fort Bridger with a night attack and fight by day with Indians, are shown. The dividing of the trails to Oregon and California at old Fort Hall, a touch of the gold fever in California, magnificent mountain shots, and a culmination of the romance with the establishments of one of the first homesteads in Oregon—these are all incidents in a picture that bristles with big scenes.

Such historical characters as Kit Carson, Jim Bridger and Bill Jackson, scouts and typical Western characters, are portrayed in the Paramount screen version of the novel, which is conceded to be one of the most notable literary achievements of the present decade.

The various roles are in the hands of well-known screen players. The leading man is J. Warren Kerrigan, and the leading woman is Lois Wilson. Alan Hale is the villain. Others in the cast include Tully Marshall, Ethel Wales, Charles Ogle and John Fox. Jack Cunningham adapted the novel to the screen.

Playhouse Presents 'And This is London' By Morton Company

Is One of the Cleverest Musical Comedies of Recent Years

"And This is London!" considered one of the cleverest musical farces written in recent years, will receive its first Victoria presentation at the Playhouse, starting to-day. The entire cast of the Frank Morton Company will be used in the new bill, with Mr. Morton appearing as the Yankee fortune hunter, Gladys Vaughan as "Sally," another character comedy role that gives the charming little comedienne plenty of scope for her inimitable style of fun making. Roy Earle has been cast as the father, with Hilda Cooke as Cicely Brambleton. Dave Dumbleton has a part that fits him like a glove. He will be seen as Lawrence Lavender. The Benet Sisters, Anita Holt and other members of the company will also be heard in a number of interpolated musical specialties. New costumes, stage

settings and lighting effects will be noticeable features. On the screen the charming Constance Talmadge will appear in a rollicking comedy, "The Goldfish."

BODY WAS FOUND. The boy had been missing from his home since Saturday. Though authorities admitted circumstances indicated the lad had hanged himself, they said they were not entirely satisfied with the suicide theory and would investigate.

D'Alvarez and the Chickering Piano

For generations "Chickering" has stood out as the world's greatest achievement of piano construction.

D'Alvarez Wrote This on the 25th of March, 1925

"It is with the utmost pleasure I again sing the praises of the wonderful Chickering Piano."

(Signed) D'Alvarez

And this great artist's opinion of the "Chickering" is further emphasized by her words graciously uttered before she left the United States to fill her Canadian engagements—

"From Jenny Lind to to-day the greatest singers have preferred the Chickering."

The "CHICKERING" is obtainable on Vancouver Island only at this store. We shall be pleased to discuss prices and terms with you, feeling that our method of selling pianos will please you.

BUSTER KEATON TAKES SEVEN SIDE-SPLITTING CHANCES AT DOMINION

Ruth Dwyer Makes Notable Showing Opposite Keaton in Hilarious Story of Fun and Adventure

Buster Keaton has a new leading woman. Her name is Ruth Dwyer. And she succeeds Kathryn McGuire. Rumor has it that the fair Kathryn is heading straight for stardom, and that she will soon be featured in a series of Western photoplays. So Miss Dwyer takes her place as feminine foil for the star of fun films in "Seven Chances," Keaton's new comedy at the Dominion Theatre.

Miss Dwyer has just finished the leading role in "White Fang," a Larry Trimble Production. She also has been seen recently in prominent roles in many Warner Brothers, Universal and Fox pictures. Recently Miss Dwyer played the lead opposite Reginald Denny in "The Reckless Age."

Miss Dwyer has the role of the fiancée in "Seven Chances" who turns down Buster when he proposes marriage in order that he may inherit \$7,000,000 from his deceased uncle.

"Seven Chances," Buster's new Metro-Goldwyn comedy, was purchased by Joseph M. Schenck from David Seligson, Seligson's famous stage comedy makes excellent screen material and, by the way, it is the first stage production Keaton has ever used for film purposes.

The cast appearing in support of the star consists of Miss Dwyer, T. Roy Barnes, musical comedy star; Snitz Edwards, Jules Cowles, Mariott Harlan, Doris Dean, Peggy Pearce, Lero Bara; Alma Bramley, Detroit heiress; Hazel Dean, Pauline Toler, Julie King, Harline Burket, Eugenie Gilbert, Edna Hampton, Barbara Pierce, Joan Arthur, Sonnie Evans and Rosalind Mooney.

DIED OF BURNS

Montreal, April 20.—From burns suffered when she knocked over an oil lamp on March 27, Mrs. Julian Boudriault, sixty-two, of Borda Plouffe, died here Saturday.

LEMON FOR THE HAIR —THE FINEST RINSE

Just think you wash your hair, wash, wash, wash, then with the juice of two California lemons in an ordinary wash-bowl full of water.

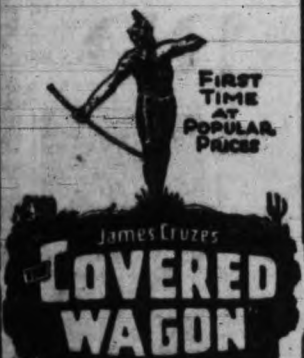

Just think a word which stays on the hair, no matter how frequently you wash it with plain water. The hair is sticky in comparison, not sticky clean, when lemon is used.

Try it, and then simply feel the hair. Note, too, its lustrous, fine appearance. See how the curl stays in it. One experience and you'll always use the California lemon juice as thousands do, including all the better "Beauty Shops."

Buy a dozen California lemons to keep handy. Get their rich, abundant juice. At all good stores.—Adv.

Prices: \$2.50 to \$5.00, plus tax.

N.B.—This being an extra concert there will be no reduction for members.

WILL OFFER PRIZES FOR ANIMAL PETS

Society For Prevention of
Cruelty to Animals Arranges
Show

Interest of children in animal pets will be stirred, it is anticipated, by the pet show to be held under the auspices of the Victoria branch, British Columbia Society for the Prevention of Cruelty to Animals on May 2.

Whether the animal exhibited is of high or low degree, matters not at all; the important point is that it shall be about fifty per cent "pet" and honors will be awarded to those children whose animals show signs of good treatment and petting.

Cards giving the rules of the show have been distributed amongst the teachers of both private and public schools and no doubt many children have secured entry cards. They can also be had from J. T. Braden, Blanchard Street, and from the secretary of the S.P.C.A., 317 Sayward Building. The cards should be mailed, when filled in, to Box 734, by April 25.

There will also be a section for bird houses, so any boy or girl who can manufacture houses may exhibit them. All entries are confined to children up to sixteen years of age.

**RADIO CLUB GIVES
ENDORSEMENT TO
REBUILT STATION**

Civic Grant to CFCT is
Supported

Sunday Services From Many
Churches Forecast

Civic aid for local radio casting was unanimously supported on Saturday evening by a special committee of the Victoria Radio Club, and the City Council will be recommended to transfer to the new operators of station CFCT, if that station is drastically reconstructed, the offer of \$1,500 made the City Temple.

George W. Deaville, manager of the reconstructed station CFCT, assured the committee that commercial contracts have already been signed for two night programmes each week, that no contracts have been made by the old station for Sunday services. He expressed his preference for participation of many congregations in the broadcasting of church services. The Ministerial Association will be approached to ascertain which churches desire to broadcast, Mr. Deaville promised.

**PRINCE OF WALES
WILL VISIT LAGOS**

Royal Traveler Greeted in
Ibadan, Southern Nigeria;
Enjoyed Polo Game

Ibadan, Southern Nigeria, April 20.—The Prince of Wales arrived here this morning after a long and tiring journey from Kano. Here he was met by a large number of officials and a welcome change in temperature, the sky being overcast and the air refreshing, with a cool breeze.

At the Prince's request the speed of the train was accelerated during the trip yesterday afternoon, with the result that it reached considerably earlier than expected. Plates were thrown from the tables and the Prince's electric fan was flung out of a window.

The Prince is to attend a brief function here, after which he will continue his journey to Lagos, 120 miles distant.

The Prince spent a comparatively quiet Sunday at Ibadan. He evidently received much benefit from the polo game in which he played Saturday. This was his first ride since March 22.

The heat at Kano slightly affected the Prince and some members of his staff, but not seriously.

**Three Children Had
A Narrow Escape**

South Vancouver, April 20.—Three small children had a narrow escape from being burned to death Saturday night when the house owned and occupied by Mrs. M. Brown, a widow at 63 Sixty-second Avenue, was destroyed by fire, causing a loss placed at \$2,500.

According to the fire authorities, neighbors, attracted by piteous appeals for help by the children in the burning building, rushed to the scene, where they rescued the children, who were in the bathroom having a bath, and brought them out in the nick of time. Mrs. Brown was away at the time and had left her two youngest children in charge of the eldest, a girl about ten years old.

The origin of the fire had not been ascertained. Fire Chief William Clark stated the flames had spread too great a hold for the dwelling to be saved when the brigade arrived.

**NEW ALIGNMENT OF
PARTIES IN BRITAIN**

Ramsay MacDonald Seeks to
Draw Young Conservatives
Into Labor Party Group

London, April 20 (Canadian Press Cable).—A week ago the Canadian Press conveyed the suggestion that Ramsay MacDonald, based as he is with disgruntled extremists in the Labor Party, might, if he is clever enough, secure the adhesion of a number of the younger Conservatives in promoting a moderate programme of social reform.

That some such idea is brewing in the mind of the former Premier is obvious from a speech he delivered in Penzance yesterday.

TO CO-OPERATE
"I never have and never will refuse to co-operate with opponents when I know them to be honorable men," he declared. "A large section of the Tory Party, especially the young Tories, are men of great promise and are sincerely convinced there are many things wrong which an honest political party can put right. Their colleagues, representatives of amassed capital and the old reactionary machine Tories, have more trouble with the young Tories than even with us. Sooner or later the courageous intelligence of the young Tories and their desire to hammer out a national policy will have to be taken up, not as party politicians but as men with a national outlook. The partition between themselves and us will then be so thin that they may as well break it down and come over to the Socialist camp."

ATTITUDE TOWARDS LIBERALS
Mr. MacDonald declared Liberalism was his own greatest enemy and that it committed suicide when it murdered the Labor Government by uniting with the Tories against Labor. His Ministry was doing so well. Beyond this, the former Premier failed to go in revealing the real reasons for his bitter hostility towards Liberalism. As has been already intimated, the bedrock of his implacable attitude remains obscure and is probably largely personal.

D'ALVAREZ CHARMS VICTORIA AUDIENCE

Famous Mezzo-Contralto In-
spires Outburst of En-
thusiasm

Marguerite D'Alvarez, world-known and famous mezzo-contralto, is no stranger to the Capital City. Three times she has now appeared before a Victoria audience, and at her recital on Saturday evening last in the Royal Victoria Theatre, as on two former occasions she again met with most flattering and spontaneous outbursts of enthusiasm. Her unique popularity is as firm as ever, her style unquestioned, her diction perfect alike in all her songs, her voice as tropically luxuriant as ever, her personality magnetic and brimful of charm, colorful, convincing and almost unrestrainable is she in mood and seething with emotion. She is an artist that seemingly lacks nothing. Her art is as a melting-pot of gold.

Her programme of sixteen numbers consisted of four groups, the second rendered in French, and the concluding, a group of Spanish folk or love-songs, in beautiful Spanish, all contrasting and of such varied and absorbing song specimens that created a spell of enchanting joy among her listeners, who gave vent to their delight and enthusiasm in a cordial manner.

Included in the French group were "Les Populaires" (Chanson), a delicate, irresistible (this had to be repeated), and the "Habanera" from "Carmen," elegant and voluptuously expressive, to which Miss Alvarez was compelled to add the second air, the "Seguidilla," from the same opera, both of which were delivered in her imitatively suggestive and dramatic fashion. In her other two groups the cleverly written Granville Hancock song-gem, "The Celestial Weaver," Richard Hageman's "Do Not Go My Love," "The Tryps" (Sibelius), beautifully interpreted; John Ireland's veritable little classic, "Sea Fever," and Martin's "Come to the Fair," invitingly given, were all of such perfectness in tonal beauty, fineness of artistry and of such individual distinctiveness that those present will not soon forget.

Her singing was in magnificent voice and in most amiable mood, giving in response to the numerous encores, "Homeing," "The Blind Pewman," "Down Here," and "All For You," with splendid appeal. Her accompaniments were admirably and judiciously played by Morton Howard.

Playhouse—"And This is London."

**FOUR WERE INJURED
WHEN AUTOS STRUCK**

Point Grey, B.C., April 20.—Four passengers of an automobile were injured, one seriously, and the driver of another automobile is held by the Point Grey police on a charge of driving to the common danger as a result of a head-on collision between two automobiles at 10:30 Saturday night at the intersection of Granville Street and Twenty-eighth Avenue.

The injured were Mrs. J. Barkhurst, 5675 Granville Street, suffering from severe cuts on her head and body; William Abercrombie, 620 Sixty-sixth Avenue, driver of one of the cars, his wife and eighteen-month-old baby, who were all cut and bruised and badly shaken up.

According to the report made to the police by Mr. Abercrombie, he was driving north along Granville when an automobile said to have been driven by MacKay, proceeding in the opposite direction, made a sharp turn on Twenty-eighth Avenue, colliding head-on with his machine.

The force of the impact threw himself, his wife and Mrs. Barkhurst, a passenger, out on the pavement. Mrs. Barkhurst was rendered unconscious from a large wound received on her head and received medical attention from Dr. A. Brown, who had her conveyed to his home. The baby had a miraculous escape from more serious injuries, as his clothing caught on the car and prevented him from a fall to the pavement.

**MESOPOTAMIA AIR
FORCE LOST MEN**

Casualties Among Britishers
During Bombing Operations
Reported to London

London, April 20.—The British air forces in Mesopotamia, says a Baghdad dispatch to The London Daily Express, engaged at the week-end in two bombing operations in which three aeroplanes and some men were lost.

A plane bombarding villages in the Sinjar area of the Syrian frontier to punish a native chief who refused to make peace with a rival chief, drew an intense rifle fire from the tribesmen and was brought down in flames, the two occupants being killed.

Two machines attacking villages near Sulimanyeh for the murder of three Mesopotamian police crashed through some unknown cause and the fate of the airmen is not known.

**TWO INJURED IN
BIG STORM IN U.S.**

Wheeling, W. Va., April 20.—A severe storm swept Eastern Ohio and the West Virginia Panhandle early yesterday afternoon and wrecked business buildings and residences in Wheeling, Wellburg, W. Va., Martin's Ferry, Ohio; Woodfield, Ohio, and a dozen other small Ohio and West Virginia communities.

Ten persons were injured, two of them seriously, in Wheeling, and reports from Ohio told of many injured. No fatalities have been reported.

**Bishop of Niagara
Died Yesterday**

Hamilton, Ont., April 20.—Right Rev. William H. Clark, D.D., Bishop of the Anglican Diocese of Niagara, died here yesterday. He was born in Carleton County, near Ottawa, seventy-seven years ago.

James Bay Outlaws Win Sunday School Title In Thriller

Vancouver Champs Defeated in Hair-raising Game by Two Points

Spalding Cup Captured by Local Boys; Other Mainland Teams Win

Results in the B.C. Sunday School League games played on Saturday night were:

Junior Boys—Kitilano Methodists 18, First Presbyterians 9.

Intermediate Girls—Polyannas (Vancouver) 18, Axioms (Victoria) 10.

Intermediate—A—James Bay Outlaws 25, Kitilano Methodists 21.

The Sunday School Basketball League closed their season on Saturday night at the Memorial Hall, when the remaining three B.C. championships were played for.

Vancouver took both the Junior Boys and the Intermediate Girls' titles, but Victoria captured the main event of the evening, the Intermediate "A" just closed.

In the series of the whole, Victoria won both of the senior men's and ladies' championships and the Intermediate "A" title, while Vancouver captured both junior championships and the Intermediate Girls and Intermediate "B" boys' titles.

WILDLY-EXCITING GAME

Saturday night's game between the James Bay Outlaws and Kitilano Methodists proved to be the most wildly exciting game of the series, and made a fitting climax to a successful season.

Seldom has a crowd of basketball fans been worked up to such a high pitch of enthusiasm. The game was a whirlwind affair all through, each team taking turns at securing narrow leads. Near the end, the whole game was the margin greater than four points.

A one-point lead was the best either team had in the first period, Vancouver finally making the score 16-14 at half time.

FANS IN UPROAR

In the second period the crowd remained on their feet the whole time, making a great uproar. Hair-raising plays were made by both teams. The Kitilano team worked on the principle of "shooting at every opportunity," long shots being taken from all parts of the floor. This plan worked nicely in the first period, Robertson and Waine dropping in remarkable shots, but the Kitilano team was again forced to a narrow lead. Vancouver again gained a narrow lead half way through the second period, but McLennan tied the score.

Kitilano were awarded six penalty throws, and proved capable shots, netting four of them, making the score 25-21.

The Outlaws, in contrast to the mainlanders' system, relied on the short passing game, preferring to delay shooting until practically sure of the points. Waine and Robertson, who were leading by a wide margin, were forced to play with a long shot, making it 25-21.

Waine and Robertson evened things up at 25-21, and pandemonium broke out in the galleries, the referee's whistle being drowned in the din.

The visitors' long shots were now missing their mark, while the Outlaws bore right in under the basket. Waine rolled in a swell back-hand shot, and Stan Moore repeating a moment later with a nice shot. Victoria was leading by four points with one minute to play when Robertson of Kitilano found the basket with a long shot, making it 25-21.

Waine's hair-raising shot, and everything available went into the air as the final whistle blew, with Victoria one basket to the good.

"Bud" Hocking and his hands full handling the whistle, but proved equal to the task.

The Spalding Cup, won by the Outlaws, is one of the finest basketball caps in the game, and will be held by the winners for the next twelve months.

The teams were:

James Bay Outlaws—Wachter 18, McLennan 4, Moore 4, Kenny 3 and Passmore.

Kitilano Methodists—Waine 9, Robertson 11, Bfack 3, Hawn 3, Smith 4 and DeCew.

POLYANNAS WIN

In the Intermediate Girls' championship, the Vancouver Polyannas staged a great comeback in the second half, overcame a 7-3 lead and emerged victorious on the night's play with a score of 18 to 10.

Victoria had a big edge on the play in the first period, but could not maintain the fast pace set by the visitors in the second period. Bob Whyte refereed, and the teams were as follows:

Vancouver Polyannas—Berutti 5, L. Guard 5, J. Kennedy 5, A. McIntyre, N. Burnett and M. Alexander. Axioms—K. Forbes 2, C. Dinadale 3, D. Gossie 2, J. Wilson 2 and H. Strain.

The Vancouver Kitilano Juniors led all the way in their match against the First Presbyterians. At the end of the first half the Mainlanders were leading by 10-2, and were not forced to extend themselves in the second half. Macedo refereed, and the teams were as follows:

Vancouver Kitilano—Fawcett, Shortt 7, C. Stewart 6, Porter 2, Stewart, Straight 4 and H. 2.

First Presbyterians—T. Forbes 3, A. Poulter 6, E. Feden, B. Killick, W. Robertson and F. Elliott.

BASEBALL TRADE

Baltimore, Md., April 20.—Marvyn Jacobson, an outfielder of the Baltimore Interlopers, has been sold to the Jersey City club of the same league. Manager Dunn of the Orioles has announced. Jacobson goes to "sketchers" on an optional agreement.

STARS IN VICTORY

TOMMY WACHTER

speedy little forward of James Bay Outlaws, who was high scorer in the game with Vancouver Kitilano Saturday night and had much to do with bringing the British Columbia Intermediate basketball championship to Victoria.

Cincinnati Hangs Up Fourth Victory And Retains Lead

Pittsburg Pirates Victims of Luque's Fine Pitching; Reds Overlooked

Giants Get Some of Regulars Back Into Game and Win; Chicago Cubs Falter

New York, April 20.—Spring forecasts of the baseball prophets received another jolt yesterday at the hands of Cincinnati. Given scant consideration a week ago by the critics, the Reds forced Pittsburg, looked upon as a strong National League contender, further into the cellar when Luque turned in his second victory of the season, six to two, holding the Pirates to four scattered hits.

Cleveland, made idle by rain, held the league leadership in the American League, only one game being played in the junior circuit. St. Louis winning its first game this year against Chicago 11-4. Three home runs were included in the base-hits, including the first of the year for Ken Williams.

The Giants kept pace with Cincinnati in the Reds' steady climb by defeating Brooklyn 4-3. The game found McGraw using a lineup more closely resembling his champions of last year than of any previous year.

The Pirates, who had been leading the league at first and celebrating the return with a home run, Frisch occupying his favorite post at first base, were forced to play with McGraw's Dodgers only six hits and Wilson lifted a record homer over the center field fence.

CARDS TURN IN NICE GAME

The St. Louis Cardinals accomplished the double feat of beating the Chicago Cubs and tying them for third place as a result of a clever pitching performance by Dickerman, the latter yielding only four hits.

AMERICAN LEAGUE

St. Louis, April 20.—Hitting heavily, the St. Louis Browns won their first game of the season yesterday, defeating the Chicago White Sox 11 to 4. Score:

R. H. E.
Chicago 4 3 4
St. Louis 11 4 0

Batteries—McQuillan and Hartley; Ehrhardt and Taylor.

LUQUE WINS HIS SECOND

Cincinnati, April 20.—Luque and Yoe indulged in a pitchers' duel for six innings at Redland Field yesterday. The latter was hit for two singles and a pair of triples in the seventh, which, with a base on balls, gave the Reds four runs and the game, the final being six to two. Luque struck out eight men. Score:

R. H. E.
New York 4 3 1
Brooklyn 6 3 0

Batteries—McQuillan and Hartley; Ehrhardt and Taylor.

ALEXANDER CRACKS

Chicago, April 20.—Leo Dickerman held Chicago to four scattered hits yesterday, and St. Louis shut out the Pirates 6 to 0. The cold weather affected Grover Alexander and the visitors hit him hard in three innings. Lester Bell cracked out his third homer in two days. Score:

R. H. E.
St. Louis 6 0 0
Chicago 4 3 1

Batteries—Dickerman and Gonzalez; Alexander and Hartnett.

Crop of Surprises In English Soccer Games on Saturday

Huddersfield Draw With Cardiff Was Unlooked For; no Winner in Sight Yet

Bromwich Win and Are Level With Huddersfield; Second Division Race Keen

London, April 20 (Canadian Press Cable)—The crop of surprises yielded on Saturday throughout the entire English League was one that would have satisfied the most ardent admirer, and the net result of the games was to leave the question of championships and promotions further in the air than ever.

The fans did not foresee a draw between Huddersfield Town and Cardiff, particularly when the Welshmen were playing with a scratch team, an eleven which was notable for the absence of Keenor, Willie Davis and Len Davis, who were engaged in the Wales-Ireland international game, and also Beadles and Evans.

From the start the game looked easy for Huddersfield. But as it developed, the Town were lucky to divide points. It has to be said, however, that Huddersfield were not fair strength either, also that they played badly.

The question whether they will lead the league for a second season in succession remained very doubtful after Saturday's contest. Their rivals, West Bromwich, pulled up beside them again and once more the two are running neck and neck. The Town's chances are somewhat brighter than those of the Albion, however, for they still have a game in hand.

DERBY COUNTY DID BADLY

There is a great deal more confusion in the Derby Division battle. Derby County failed miserably on their own ground against Stokes, serving up one of the greatest defeats of the season.

On the list of possible relegations, they traveled to Derby and administered a solid trimming to the County, and making the latter's hopes for league leadership look very sick indeed. At the same time, Manchester United obtained a one goal victory over Bradford City and this enabled them to pull ahead of Derby County into second place and to make them threaten even the position of Leicester City themselves.

Manchester City, who were almost certain of the leadership a few weeks ago, have played wonderful football of late, and they now have a game in hand over Leicester City and are running at a distance behind them. The latter have been left to South Shields to serve up the battles that were to upset all hope with regard to the leaders, for in a series of games they have totally somersaulted the league. Saturday they drew with Leicester City, and it put them in a position where they have to put forward everything they have in order to stay where they are, at the head of the table, with the honor of promotion.

The aim of the game, in the Northern Section, for Darlington have already acquired so great a lead over the others that they cannot now be disturbed and they will go up.

MUST GO DOWN

At the other end of the table there are four clubs in the First Division, about Preston North End and Notts Forest must go down to junior company, but in the Second Division, the latter may be certain for "election" to the third, the question as to who will accompany them remains to be assured.

The moment of the game, in the Northern Section, for Darlington have already acquired so great a lead over the others that they cannot now be disturbed and they will go up.

AMERICAN LEAGUE

St. Louis, April 20.—Hitting heavily, the St. Louis Browns won their first game of the season yesterday, defeating the Chicago White Sox 11 to 4. Score:

R. H. E.
Chicago 4 3 4
St. Louis 11 4 0

Batteries—McQuillan and Hartley; Ehrhardt and Taylor.

LUQUE WINS HIS SECOND

Cincinnati, April 20.—Luque and Yoe indulged in a pitchers' duel for six innings at Redland Field yesterday. The latter was hit for two singles and a pair of triples in the seventh, which, with a base on balls, gave the Reds four runs and the game, the final being six to two. Luque struck out eight men. Score:

R. H. E.
New York 4 3 1
Brooklyn 6 3 0

Batteries—McQuillan and Hartley; Ehrhardt and Taylor.

ALEXANDER CRACKS

Chicago, April 20.—Leo Dickerman held Chicago to four scattered hits yesterday, and St. Louis shut out the Pirates 6 to 0. The cold weather affected Grover Alexander and the visitors hit him hard in three innings. Lester Bell cracked out his third homer in two days. Score:

R. H. E.
St. Louis 6 0 0
Chicago 4 3 1

Batteries—Dickerman and Gonzalez; Alexander and Hartnett.

Auto Driver Makes 135 Miles an Hour On 25-Mile Course

Culver City, Calif., April 20.—Leon Duray made a world's record when he drove his automobile twenty-five miles in 11 minutes 10 seconds to the first event on the programme of sprints at the speedway here yesterday afternoon. He made an average speed of 134.32 miles an hour. Tommy Miller finished second and Earl Cooper third.

Price Medalist In Qualifying Round Of Uplands Golf

Former City and B.C. Champion Has 159 For 36 Holes; Savident Second

A. V. Price, who was defeated in the semi-finals of the B.C. amateur golf championship a week ago by Bon Stein, the new champion, won the qualifying round of the club championship of the Uplands Golf Club yesterday with a score of 159 for the thirty-six holes. He finished seven strokes ahead of John Savident, the defending champion, who had 165.

R. J. Darcus, one of the strong match players of the club, was third with 179. Scores of 187 or better were good enough to qualify. W. W. Hall and S. J. Hall tied with 189, and will play off for the honor of making the qualifying round.

The first round will be played on the morning of April 26 and the second round in the afternoon of that day.

The scores were as follows:

A. V. Price 159, J. Savident 165, R. J. Darcus 179, H. F. Hepburn 171, P. Edmonds 172, C. Morrison 172, W. G. Leith 173, A. A. Fairbank 174, J. B. Urtsack 174, Capt. Warder 175, A. Thomas 176, V. R. Gravin 176, D. M. Gordon 177, G. P. Prettly 178, W. H. Haldane 178, R. Peacher 178, E. J. Taylor 179, A. Sheret 179, H. Collings 181, R. Poulis 182, J. Caven 182, D. A. Macdonald 183, A. Youngman 183, A. C. Falk 183, G. S. Carr 183, W. Newcombe 184, G. C. Baker 184, L. Glazman 187, D. W. Campbell 187, W. W. Hall 189, S. J. Hall 189.

Other scorers were: A. D. Findlay 190, A. B. Dunn 192, A. Lawrie 193, H. H. Beck 194, J. R. Hibernian 195, H. H. Aaronson 195, P. Somer 196, J. Staden 199, J. B. Lambert 200, W. Watson 201, R. Dunn 201, G. Mitchell 201, J. Savannah 201, R. G. Leake 204, W. K. Hadley 204, W. P. Allen 204, R. J. Darcus 205, G. D. Tyson 205, P. Austin 206, R. Travis 206, A. C. Putter 207, F. H. Rishfield 211, W. F. Loveland 212, C. G. Palmer 212, F. Lewis 212, J. Partridge 216, R. Castle 219, L. B. Trimmen 222, R. R. Taylor 223, G. Gordon Ellis 254.

Picaron, Favored To Win Derby, is Not a Big Horse

London, April 20 (Associated Press)—Picaron is the favorite for the Derby, following his easy victory on a tight rein, in the Craven Cup on Friday. Those who follow the "sport of kings" who managed to place money on him for the Epsom classic—beating the favorite, something which is a feat in itself—will be disappointed. Although A. R. Cox's brown colt is not a big horse, he looks like a classic thoroughbred.

NURMI WINS AGAIN

Chicago, April 20.—Paavo Nurmi won the special race at the Loyola University relay here yesterday in 8 minutes 49.5 seconds, with Willie Ritola a few feet behind him. The track was wet and soggy.

PARTICK SHOT BADLY

It was bad shooting that cost Partick Thistle the win against Partick Thistle. The latter took them into camp 3 to 1.

Rath Rovers handed out a surprise when they defeated Morton at Greenock, coming out at the long end of a 3 to 2 game.

LAST INTERNATIONAL

London, April 20.—Canadian Press Cable)—The international soccer games were closed on Saturday when an eleven representing Wales drew with an Irish eleven at Wrexham, giving him a chance to lead the forwards against Burnley, but the Football Association objected. The policy that no player transferred prior to the middle of March could play in a game that was vital to promotion or relegation of a club was carried out, the stand of the association being that the introduction of any new player by Arsenal would have been unfair to Preston North End.

LANARK GOES DOWN

Glasgow, April 20.—Saturday's results in the first division of the Scottish Football League relegated Third Lanark to the second division, despite Lanark's 4 to 0 victory over Falkirk. The effort came too late. Finally scored the four goals.

By their two to 0 victory over Hibernians, Airdrieonians are again practically equal with Rangers for the league championship. Rangers could only draw 1-1 with Motherwell.

All games Saturday in Scotland were played in a downpour of rain. Who will accompany Third Lanark remains to be seen. There are six clubs to select from—Aberdeen, Motherwell, Kilmarnock, Falkirk, Arbroath and Queen's Park.

Queen's Park surprised the Celtic by drawing them, for the Celts had easily the better of the play. Their defence was good, however. More-

The final result is shown in the following table:

Team P W D L F A Pts
Scotland 3 2 0 8 1 6
England 3 2 0 15 4 4
Wales 3 0 1 2 5 1
Ireland 3 0 1 2 1 1

Rifle Shooting

The Fifth Regiment C.G.O. held a shoot at Clover Point on Saturday. A strong gusty wind at 200 yards and changing light and rain at 500 yards made the shooting difficult. The spoon winner in "A" Class was Major Richardson, while Gr. H. A. Johnson won the spoon in "B" Class. The results were:

"A" Class
Major F. Richardson 200 500—71
B.S.M. S. R. Bowden 44 41—85
Bdr. A. H. Rudge 39 41—80
Sgt. J. H. Regan 36 37—73
O.R.S. A. Morry 32 35—67
S.M.L. J. Stuckey 30 25—55

"B" Class
Lt.-Bdr. E. R. Simmons 31 34—65
Gr. W. A. Johnson 30 39—69
Gr. H. Wheldon 33 32—65
Gr. A. Webb 26 26—52
Gr. V. G. Slavakov 24 19—43

Will Bury Ebbetts To-morrow; National League Games Off

New York, April 20.—President Haydel, of the National League, has called off all ball games by the National League to-morrow, the day set for the funeral of Charles Ebbetts, president of the Brooklyn Baseball Club, who died Saturday.

Victoria Golfers Gain a Fine Lead On Seattle Team

First Half of Match Sees Locals in Form; Wilson Halves Match With Stein

Oak Bay golfers got away to a good lead in the first half of their match on Saturday with the Seattle Golf Club for the Strutt Cup. Teams of thirty golfers competed in the annual match, the first half of which is played in Victoria and the second half in Seattle. In the singles in the morning Victoria scored 17 points to Seattle's 8, while in the four-ball match in the afternoon, Victoria counted 15 points to Seattle's 14. This gave Victoria a total of 32 points on the day's play, while Seattle collected 18 points.

The feature match of the day was between Bon Stein, the new B.C. amateur golf champion, and Harold Wilson of Victoria, who was beaten in the semi-finals of the B.C. tournament by Stein.

Wilson, runner-up to Bon Stein, turned in a splendid game over his home links and won the sixteen to ten holes, while Stein, who was however, came through with one of his characteristic fighting finishes and won the next two holes to halve the match.

SINGLES

Bon Stein 4, Harold Wilson 4.
L. W. Steel 4, A. G. Beasley 4.

Macaulay Golf Club To Stage Tournament For Championship

The annual club championship tournament of the Macaulay Point Golf Club will open on April 26 when the qualifying round will be played. The sixteen lowest scores will qualify. Entries must be in the hands of the secretary by Wednesday, April 22, when the draw will be made.

ARGENTINA BEATS ITALIAN

Buenos Ayres, April 20.—Nigel Ferrara, the Argentine heavyweight, last night outpointed the Italian boxer Jose Spalla, in a ten-round bout. The fight was a slow one.

Esquimalt Now Tied With Vets For Soccer Lead

Dockers Scored 5-2 Victory Over League Leaders on Saturday Afternoon

Services Handed Wests 8-0 Drubbing; Wards Victors Over Englishmen

Esquimalt is now tied with the Veterans for the leadership of the First Division as a result of their decisive victory over the Vets on Saturday afternoon at Work Point, by the score of 5-2. The league leaders tried hard to score a win over the Dockers but they were outclassed by their younger opponents.

Results of Saturday's First Division games were as follows:

Esquimalt 5, Veterans 2.
United Services 5, Victoria Wests 0.
North Wards 5, Sons of England 3.
For the game at Work Point, Esquimalt pressed at the start. The Vets soon carried the ball into Esquimalt territory and tested Nicol. The red shirts continued to attack the dockers' goal, and Clancy put them one up when he broke through Esquimalt defence and beat Nicol. This speeded up the game, and for the next ten minutes both teams lodged several fire combined rushes. Esquimalt evened up when Warren drove a fast one past Bridges.

ESQUIMALT PULL ONE

In the second half Esquimalt showed their true force, and the Vets were helpless against the strong defence play of the dockers. A few minutes after the start Tommy Watt boosted the Esquimalt stock with a pretty shot from close in. Another goal was registered for Esquimalt when Stewart beat Bridges on a rebound shot.

For the next ten minutes the Veterans tried their hand at scoring, and they were successful in netting another counter when Preston boosted Clark's centre into the net. Esquimalt added two more goals right after John Watt scoring one and Stewart the other. The Vets lodged several attacks towards the Esquimalt goal, but they were unable to score.

WESTS HELPLESS

A burlesque match was witnessed at the Royal Athletic Park between the United Services and Victoria Wests. The Services scored goals at will. Coulter, the Services' star centre forward, accounted for six of his team's goals. He played a great game and was easily the pick of the forwards.

In the first half the Wests did fairly well and kept the score down. The Services opened the scoring when he beat Shandley. The Wests' goalie, with a stinging shot from right wing, Coulter added another with a shot from close quarters. Shandley had made a fine save of his first drive. For the remainder of the half the Services were on the attack, but the Wests managed to keep their goal clear.

Goals galore came in the second frame. Coulter added another five to their total, while Ward scored the other two. Ward broke away and carried the ball down the field when he fielded in the Wests' players were up the field in an attempt to score.

At Beacon Hill another mediocre game was witnessed between the North Wards and Sons of England. Both teams were short handed, and the brand of soccer dished up was poor. At half-time the Wards were on the long end of a 2-1 score, and for the better part of this half they were on the attack.

In the second half the Englishmen tried hard to get onto even terms, but they were unable to do so. For two goals, while the Northerners added another three to their total. Alecock handled the whistle.

COAST LEAGUE BALL

PACIFIC COAST LEAGUE
At Seattle—R. H. E.
Seattle 4 12 2
Sacramento 3 4 3
Portland 2 3 3
Seattle 2 11 2
At Los Angeles—R. H. E.

SPRING SNOWSTORM IN CENTRAL ONTARIO

Relapse of Winter Seen in Old Part of Province; Snow-ploughs Were Used

More Than Foot of Snow in Belleville District; Eleven Inches at Lindsay

Toronto, April 20.—Old Ontario suffered a relapse of winter over the week-end and the central portions of the province had to dig themselves out of snow in some places a foot deep. The snow followed on the heels of an electrical storm, the most severe of this spring, which was accompanied by torrents of rain. Belleville reports snow to a depth of twelve to fifteen inches, beginning to fall shortly after 2 a.m. and continuing until late this afternoon. It tied up traffic in all parts of the district.

Lindsay had eleven inches of snow, which made it necessary to shovel a road to the cemetery for two funerals. The corporation snowploughs were out in Orillia, where eight inches fell.

In Midland snow and lightning came together.

Toronto had a few inches of snow. Kingston had its milk supply held up for a few hours by the unexpected visitor.

Kootenay Lake Level Now High

Nelson, B.C., April 20.—Several feet above the normal for this time of year, the water in the West Arm of Kootenay Lake at Nelson stands at 8.15 feet above low water mark. With a record depth of snow in the hills, unusually high water seems likely this year.

Toronto, April 20.—Attorney-General Nickle received a telegram today from Los Angeles containing information that Andrew Papahl was carrying his habeas corpus petition to the district circuit court in San Francisco, and that he was prepared to fight extradition to Toronto for trial to the last ditch. Papahl lost his first appeal, which was to a federal judge in Los Angeles and his application was dismissed.

OTTAWA MOVES TO KEEP POULTRY UP TO HIGH STANDARD

All Birds Imported Here in Future Must be of Best Strains

By Times Staff Representative

Ottawa, April 20.—Drastic regulations designed to maintain the high standard of poultry in British Columbia and other leading poultry provinces are being put into effect by the Canadian Government now. The new rules, drafted by the Department of Agriculture, will put a complete stop to the importation of duty-free poultry of inferior quality and thus end a movement which of late has threatened to undermine the reputation which Canada's poultry is winning all over the world.

For some years the importation of poultry into Canada duty-free has been permitted, provided the birds were accompanied by a simple declaration from the shipper to the effect that they were intended for the improvement of stock. During the last few years, however, considerable numbers of poultry, particularly baby chicks of a very inferior quality, have been imported under these regulations. This movement, of course, was thwarting the efforts of the Government to keep the poultry of this country up to a high standard.

TO CORRECT ABUSE

In order to correct this abuse and thereby keep pace with Canada's own much-improved poultry flocks, which recently have sprung into international recognition, the Department of Agriculture requested the Customs Department to raise the standard required for free importation of poultry. Under the new orders issued, all poultry imports must be accompanied by a declaration from the shipper assuring the authorities that the birds actually are being imported to improve flocks already here.

In the case of baby chicks the declaration from the shipper must show the pedigree of the birds, tracing their ancestry from two generations with trap nest records of success at recognized poultry shows. The chick band number also must be given together with the breed variety. In the case of full-grown poultry the certificate must show the breed, variety, sex and band number, and the bird must qualify under the rules laid down by the American Poultry Association as being fitted for the improvement of stock.

BOYS TO PLAY GIRLS IN MUSIC CONTEST AT COLUMBIA SCHOOL

More than ordinary interest is being taken in this month's recital at the Columbia School of Music. The recital, the eighth of the season, is in the hands of the intermediate grade pupils, and is in the nature of a "return match." A few months ago this grade gave a recital, the girls playing the boys, and by a vote of the audience the former were declared winners of the evening. The boys, while not questioning the decision of the audience, issued a challenge to another recital, and the principal has arranged that the challenge will be met on Friday evening. As on the last occasion, both sides have prepared an eight-hand piano quartette as well as piano solos and duets, violin solos and vocal solos, and with sixteen on each side, all desperately keen to win the honors of the evening. An interesting time is expected. The decision is again to be left to the audience to decide by ballot.

Student in Seattle Committed Suicide

Seattle, April 20.—With a five-dollar banknote which was wrapped tightly around a few strands of hair, clutched in a hand, the body of Noah Clavin, eighteen, a high school student, was found in his room in his home to-day. A cup of poison was beside the body. A note which read in part: "Life is too empty. My all is gone. The joke is on me," was found near the body.

MAN'S ORIGIN TRACED INTO DIM ANTIQUITY BY STRANGE RECORDS

Archaeologists Tells of Discoveries in Hava Supai Canyon, Northern Arizona

Oakland, Cal., April 20.—Weird prehistoric figures, chiseled into the red sandstone of the deeper recesses of the Hava Supai Canyon, an unsurveyed region in northern Arizona, and the object of a scientific expedition last year, reveal man in existence during the dinosaur age, in the opinion of Samuel Hubbard, curator of archaeology of the Oakland Museum, who acted as director to the party.

Deductions of Mr. Hubbard were made public to-day in a brochure entitled "The Doherty Scientific Expedition." Photographs taken from the engraved figures on the canyon walls lead Mr. Hubbard to the conclusion "that some prehistoric man made a photograph of a dinosaur on the walls of this canyon. This completely upsets all our theories regarding the antiquity of man."

FIRST PARTY THERE

E. L. Doherty, sponsor of the expedition, visited the Hava Supai Canyon as a young prospector in 1879. His party comprised the first known body of white men to invade the canyon and Doherty's number was killed in the attempt, the report points out. Mr. Hubbard made three previous visits to the region which yielded the specimens. The scientific party, composed of five persons, made its way into the unsurveyed region of high waterfalls located in a valley 2,195 feet above sea level, north of Williams, Arizona. In the area of the Grand Canyon, the section is inhabited by 187 Indians on the Supai Reservation. Mr. Hubbard was accompanied on his expedition by Charles W. Gilmore, curator of vertebrate paleontology of the United States National Museum. Mr. Gilmore did not agree in all particulars with the general conclusions of the party.

IDENTIFIED TRACKS

Mr. Gilmore, however, the report points out, identified tracks located 100 miles from the valley of the ancient figures. The dinosaur tracks were in the area known as the "Painted Desert." Photographs of the dinosaur tracks, according to the report, show the print of the dinosaur tail as it dipped between the foot prints and formed a balancing point for the lumbering giant of antiquity.

Referring to the photograph taken of the dinosaur figure chiseled into the red sandstone sides of the walls of the isolated valley Mr. Hubbard concludes that "either man goes back in geologic time to the Triassic Period, which is millions of years before the present, or admitting, or else there were left over dinosaurs which came down into the age of mammals."

URGE TO CREATE

Turning to conjecture on the creative ability of the prehistoric man who comes out of the findings of the expedition, the report says "he made and used tools and had an eye for form and a sense of proportion. He felt the same urge to create which animates civilized man. In the face of this evidence the ape man, if there ever was such a creature, is buried still deeper in the overwhelming age of time."

On the same stone wall with the dinosaur figures the explorers photographed the outline of an elephant attacking a man. "The elephant," says the report, "is striking the man on the top of the head with its trunk." A wavy line in the figure, which is in the centre of an unexplained group, "represents water into which the man has retreated up to his knees."

FIGURES OF IBEX

In three separate places in the canyon the explorers found and photographed chiseled figures of ibex on the walls. One group, showing a male and two females, "was found immediately under the elephant picture, the report asserts."

"The interesting thing about this is that no ibex, not even fossil ones, have ever been found in America," the report adds. "These drawings would seem to indicate that they must have been a common animal in the Grand Canyon in the prehistoric past. Roy Chapman Andrews, who has hunted ibex in the Gobi desert in Mongolia, pronounced these to be ibex for the reason that the characteristic knobs on the front of the horns are faithfully represented in the carving."

PETRIFFIED BODIES

About a half-mile down the main Supai Canyon from the point where

DR. COOK GOES TO PRISON—Dr. Frederick A. Cook (left), once acclaimed by the world as the discoverer of the North Pole, is now an inmate of the federal penitentiary at Ft. Leavenworth, where he was sentenced for 14 years for promoting fake oil schemes. Cook is shown here on his way to prison in custody of Sam L. Gross of Dallas, Tex., U.S. marshal.

the wall carvings are exposed; the explorers found a stone figure embedded in the walls of the canyon, the report declares. Indians told the party of their legend of the figure, which said it was once a living woman petrified by the action of lime in the water. Beside the figure, the report says, "lies that of a baby wrapped in petrified skins."

ONLY STONE

Mr. Gilmore made "hasty examination of the figure," and he believes it to be "an aggregation of limestone in the form of a human being."

Dissenting from Mr. Gilmore's opinion on the formation of the Indian figure, the report says: "The head is somewhat flattened and a fragment of the forearm is very much like that of a human being. The body measures 5 feet 5 1/2 inches from the top of the head to the end of the spine, involving a total height of between eleven and twelve feet. While it is quite true that nature makes many freaks, we feel there is enough doubt in this whole matter to warrant a more complete examination by a party prepared to spend the necessary time."

ANCIENT FORTRESS

An ancient fortress uncovered in that part of the Grand Canyon known as "The Thumb" is pictured in the booklets. The fortress is described as an "isolated island of stone" on

PLOT HINTED IN FRENCH RAIL WRECKS—Following closely the disaster to the Paris-Bordeaux express, came the wreck of the Paris-Vienna express, shown above. Police are investigating. Sections of the track had been torn up. Cranes are shown lifting the derailed coaches out of the ditch.

NOO-KUD-LAH, NOW IN "BIG GREY IGLOO" FOR MURDER, MAY GO BACK TO NORTHLAND

By Times Staff Representative

Ottawa, April 20.—Noo-kud-lah, picturesque Eskimo murderer, may be released from Stony Mountain penitentiary near Winnipeg this year and sent back to his people in the far northland. Noo-kud-lah's tribe, believing that he would return to them this year after satisfying the white man's law in the "big grey igloo," are growing restive, according to reports received here, and the federal authorities are considering the advisability of sending the native home. Strong representations in favor of this course have been made to the federal authorities by those who are familiar with the Eskimo people, and believe that if Noo-kud-lah is not released further violence will occur among them. No final decision on the Eskimo's fate has been reached yet, but if it is decided to release him he will go North with one of the Government's annual Arctic expeditions.

Even if he should be allowed to leave prison in Winnipeg, however, Noo-kud-lah, it is expected, will not be allowed his complete liberty. After he arrived back at Pond Inlet, his home, he will be placed in charge of the Mounted Police, and will be forced to pay further penance for killing a Newfoundland trapper, it is understood.

FEARS NATIVE VIOLENCE

Capt. J. E. Bernier, noted Arctic explorer, who is thoroughly familiar with the natives of the Ponds Inlet country, believes that the Eskimos should Noo-kud-lah not arrive home this summer. In a statement given out in the last few days Capt. Bernier declared that if the Eskimo were kept in prison longer serious reprisals might be expected. He went so far as to say that it would not surprise him if the Royal Canadian Mounted Police had to be called upon to quell serious disturbances and perhaps undertake another manhunt to arrest another native murderer—in the far North should Noo-kud-lah remain in prison after this summer.

NATIVES ANXIOUS

Capt. Bernier said he had every reason to believe that the native would be returned to his tribe soon. Noo-kud-lah's people, he said, asked anxiously for him when white men last visited his country and seemed confident that he would come back to them this year. The natives apparently thought that the white man's justice had been satisfied, and that if their fellow tribesman were kept in prison any longer he would die.

"I fear that if we return to the North this year without Noo-kud-lah the natives will exhibit a very ugly spirit, which might lead to other serious disturbances," Capt. Bernier declared.

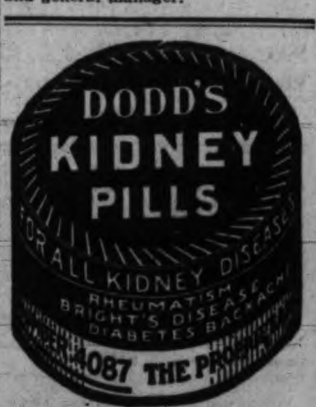

If the Department of Justice decides to send Noo-kud-lah home he will be released in time to permit him to go with one of the expeditions which will start northward as soon as navigation is possible.—B.H.

PROTECTION NEEDED AGAINST THE OCEAN

London, April 20.—For many years the gravest anxiety has existed on many parts of the east coast of England owing to the increasing erosion of the coast line. The matter formed the subject of inquiry by a royal commission, whose findings, however, up to the present time, do not seem to have had much more effect upon the advance of the waves than had the famous command once given by King Canute. The same trouble, it seems, is now appearing upon the west coast. Westward Ho, the quaint little seaside resort in North Devon, is threatened with extinction. Recent sea encroachments have been so serious that a scheme has been hurriedly drawn up for the protection of the place. It must be carried out if Westward Ho is to survive, but its cost, which is estimated at £28,000, is more than the town, with its population of about 5,000, can provide itself. An appeal therefore was made to the Ministry of Health. As a loan of £28,000 would more than exhaust the local council's borrowing powers, the Ministry suggests the formation of a scheme of contributions from all persons interested in the safety and development of Westward Ho.

N. B. Douglas New Merchants' Secretary

Ottawa, April 20.—The resignation of E. M. Trower of Ottawa as secretary and general manager of the Retail Merchants' Association of Canada was received and accepted at a meeting of the representative committee and J. A. Hanfield of Winnipeg, president of the association, here on Saturday. Norman B. Douglas was temporarily appointed secretary and general manager.

Macey's Unbelievable Prices and Draw the Crowd

If you happened to pass View Street on Saturday you couldn't help but notice the crowd at Macey's. News of our price slashing brought hundreds to share in the cash savings.

One feature of this sale which cannot be too strongly emphasized is that prices have not been inflated for sale purposes. Every cut is a genuine reduction from our regular price. Every reduction is an honest bargain. That is why we are drawing the crowd.
